

APAC-14 Details and Deadlines

SAE International is not expecting drafts from any APAC Member Society countries. We only need the Final Manuscripts by June 18, 2007.

Each APAC Member Society country is to review their abstracts/drafts on their own. Then, each APAC Member Society country is to send SAE International a list of the ones they have selected for publication.

The March 15 date is an internal date for SAE International to inform authors of acceptance (intention to publish).

Once each APAC Member Society country provides SAE International with their final list of papers to be published, Angela Roberts will send all of those accepted authors letters with next steps. (Please be sure that your list includes the lead author's complete contact information.)

To help clarify this process, please see the table below:
