LEAD COLLECTION CHOICES THAT ARE RELIABLE AND EASY TO USE

EXPOSMART

The **ExpoSmart** allows the exhibitor to use their personal Android or Blackberry 6.0 smart phone with autofocus camera for lead management. The Exhibitor downloads the ExpoSmart application to their smart phone prior to the event, eliminating the need to pick up or return equipment once they arrive on-site. With ExpoSmart, the exhibitor simply scans the QRcode on the back of the badge. ExpoSmart offers all of the same real-time web page lead management and custom qualification features as the ExpoAccess.
(PHONE NEEDS TO BE COMPATIBLE WITH EUOPEAN NETWORK)

EXPOSCAN

The **ExpoScan** is the latest in improved Lead Generation Systems. ExpoScan makes it easier to collect your leads and more effectively use these leads to increase sales revenue and expand the scope of your business. ExpoScan is a compact, mobile integrated badge reader with internal memory that does not require an electrical hookup. It has the option of an external Bluetooth printer. ExpoScan stores each lead in its memory and these leads are then made available on a secure password protected web site. At the end of the show just drop off the ExpoScan unit and the data will be immediately downloaded to your secure web site for your continual use for up to 90 days after the show. No waiting to download your data on-site or having the possibility of your leads getting lost.

PRINTER

The **Printer Option** provides a thermal printer that does not require an electrical hookup and automatically produces a complete lead form which includes the ID#, name, title, company name, address, phone, fax, email, demographic codes, and the time and date visited, as well as ample room to write notes. 58mm thermal printer, prints 1000+ leads on a single charge. Bluetooth© technology.
