# Requirements for DoD Initiatives

ADUSD – Program Support

- Section 861, 2008 NDAA - Establish framework in Iraq & Afghanistan for managing and reporting on DoD, DoS, & USAID contracts, contractor tracking, and incident reporting
- Section 862, 2008 NDAA - Establish regulations governing all USG PSC operations in a “combat operation,” specifically Iraq and Afghanistan
- Section 1248, 2008 NDAA – Report on Iraqi Citizens and Nationals Employed by the United States Government or Federal Contractors in Iraq; and Report on Establishment of the Database
- Synchronized Predeployment and Operational Tracker status

# Effects-Based Approach

ADUSD – Program Support

## ➤ SPOT End State Must Deliver a Capability to:

- Identify a contractor to a contract
- Identify a contractor to authorized support
- Track contracts to execution, termination, redeployments
- Provide visibility of contractor movement to various locations
- Provide critical information (e.g. training, arming authorizations, etc.)

# Implementation

ADUSD – Program Support

## Status

- CENTCOM FRAGO mandating SPOT registration and the use of a **Standardized Letter of Authorization published**. Effective Date: **30 Aug 08**
- Based on the 30 Jun 08 CENTCOM Census, **approximately 47% of target contractors are currently captured in SPOT** (largest populations known to not be in SPOT are LOGCAP, AAFES).
- JCCI-A is compliant with loading new contracts and contractors.
- For the month of September, **SPOT new user registrations increased by 700 percent**; Letters of Authorizations produced approaching 30K.
- Large concern is that contract officers not registering contingency contracts in SPOT as a follow-on to the award process. This is required for companies to complete Contractual requirement.
- Department of State on track to have all contractors loaded into SPOT Oct 08. USAID in planning phase.
- Other COCOMS implementing SPOT.
- Biometric Card Initiative.

**Bottom Line: No Negative Impact to the Warfighter**
