Subjects of interest for the technical program include the following (but not limited to:)

Combustion

- C1 Mixture Preparation, Combustion & Emission Formation Processes in SI Engines
- C2 Combustion & Emission Formation Processes in Diesel Engines
- C3 Diagnostic in SI & Diesel Engines
- C4 Direct Injection SI Engines
- C5 HCCI/PCCI/CAI Engines
- C6 Diesel Spray and Mixture Formation
- C7 Modeling of SI Engines
- C8 Modeling of Diesel Engines
- C9 New Combustion Systems in SI and Diesel Engines
- C10 Others

Emissions

- E1 Future Automotive Catalysts and Converter Technologies
- E2 Effects of Fuels and Lubricants for Automotive Devices
- E3 Advanced Emission Aftertreatment for SI Engines
- E4 Advanced Emission Aftertreatment for Diesel Engines
- E5 PM Characterization in Exhaust Gas of Diesel and Gasoline Engines
- E6 Others

Lubricants

- L1 Light Duty Engine Lubricants
- L2 Heavy Duty Engine Lubricants
- L3 Power Train Tribology
- L4 Current Development of CVT and AT Fluids
- L5 Fuel Economy and Environmental Impacts of Power Train Lubricants
- L6 Lubricants Testing and New Test Methods
- L7 Lubricant Applications for Power Train and Industry Systems
- L8 New Lubricants and Additive Development
- L9 Others

Fuels

- F1 Gasoline Performance and Additives
- F2 Diesel Fuel Performance and Additives
- F3 Fuel Cell Fuels
- F4 GTL
- F5 Bio and Oxygenates
- F6 Alternative Fuels
- F7 Gaseous Fuels
- F8 Others

Measurement, Testing, Statistics and Others

- M1 Measurement, Testing and Statistics
- M2 Engine Coolants
- M3 Mutual and Boundary
- M4 Others
