Care and Repair of Advanced Composites

Second Edition

By Keith B. Armstrong, Graham Bevan, William Cole

This second edition has been extensively updated to keep pace with the growing use of composite materials in commercial aviation. Although this book has been written primarily for use in aircraft repair, all composite repair technicians will benefit from reading this book. Among the industries this includes are automotive, marine, railway, wind power generation, and sporting goods.

Topics new to this edition include:

- nondestructive inspection (NDI) methods
- fasteners for composite materials
- a method for the surface preparation of metals prior to adhesive bonding, repair design

ISBN-10: 0-7680-1062-4, 664 pp., Casebound 2005.
ISBN-13: 978-0-7680-1062-6

SAE Dictionary of Aerospace Engineering

2nd Edition

By Joan L. Tomsic

With the fast-moving technology related to aerospace engineering, new terms are created and others become redundant almost weekly. The updated SAE Dictionary of Aerospace Engineering dictionary, designed specifically for the aerospace engineer, provides extensive coverage of technical terms related to aerospace technology.

ISBN-10: 0-7680-0245-1, 758 Pages, Hardbound 1998
ISBN-13: 978-0-7680-0245-4

Aircraft Maintenance

the Art and Science of Keeping Aircraft Safe

By Bruce R. Aubin

This comprehensive executive-summary-style report written for business professionals, engineers, mechanics, technicians, educators, and students. Author Bruce R. Aubin examines and explains each component of aircraft maintenance in this easy-to-read guide that covers everything from history, evolution, and organization to engineering, evaluation, and the future.

ISBN-10: 0-7680-1242-2, 166 Pages, Paperbound 2004

Emerging Technologies in Aircraft Landing Gear

Recent developments in aircraft landing gear systems have brought about a new set of challenges for engineers and aerospace professionals. This comprehensive collection of 36 papers presents the most prominent research in aircraft landing gear systems since 1990. The latest developments in brake friction materials, landing gear dynamics, tire mechanical properties and brake-induced vibration are covered.

Contents Include:

- Landing Gear Design and Materials
- Landing Gear Dynamics and Shimmy Analyses
- Brake and Wheel Studies
- Tire Properties and Analyses
- Tire Wear

ISBN-10: 0-7680-0091-2, Hardbound 1997
ISBN-13: 978-0-7680-0091-7

TELEPHONE/WEBCAST

More Electric Aircraft: Advanced System Optimization and Integration Telephone/Webcast

October 24, 2006 (11:30 a.m. - 1:30 p.m. ET)

By participating in this telephone/webcast, you will:

- Explore opportunities for improvement of aircraft operating efficiency using more electric systems
- Discuss approaches to aircraft system-of-systems optimization
- Highlight the benefits of integration technologies for more electric aircraft systems

Price: \$179 List/Member; \$149 SAE Section and student chapter sponsored sites
Product Code: #C0623

SAE Reference

Whether it's a single paper or an intranet-base corporate library, SAE can provide you with the technical information you require, in the format that best meets your needs. Building on over a century of expert technical knowledge, research and experience, technical information from SAE can help you:

- Reduce time from concept to finished product
- Improve manufacturing processes
- Enhance product and process quality
- Facilitate innovative research and development

Technical Papers

Choose the Format that Meets Your Need

Individual Papers

SAE Technical Papers are available in print or as a PDF download

\$12.00 List and \$9.60 SAE Member Price.

Progress in Technology (PT)

books are collections of landmark SAE technical papers focused on a specific technology, edited by experts on the volume's topic. Each volume features a special introduction by a leading expert on the collection's subject. When combined with this year's new SP's, users will have complete, comprehensive and definitive information on their topic of interest.

TechSelect

Create Your Own Special Publication

TechSelect is SAE's exclusive online technical papers delivery service, providing easy access to the most current aerospace and ground vehicle technical papers available. TechSelect offers a truly customized subscription plan designed to meet your specific requirements. TechSelect lets YOU choose how many technical papers you want or need. Choose from over 19,000 Technical Papers dating back to 1998. Purchase and download only those you need. For a free demo, visit www.sae.org/techselect.

AeroPaks

our online subscription service for aerospace standards—

is a cost-effective alternative to buying individual standards or complete standards collections. AeroPaks are ideal for organizations that purchase standards fairly frequently but don't need an enterprise level agreement. With AeroPaks you buy only the standards you need (choose 10, 15, 25, or 35 downloads per year), you realize significant savings, and the standards you buy will always be current at the time of purchase. Available via .PDF download. For more information: visit www.sae.org/aeropaks, call 1-724-772-7144, or e-mail elecpubs@sae.org.

SAE Standards on CD-ROM with Update Service

Do you need an entire SAE standards library? In a medium that's fast and easy to use and remains current throughout the year? Order the copy of SAE Standards on CD-ROM that suits your needs: aerospace, aerospace material specifications (AMS), or ground vehicle. Each CD-ROM contains the entire respective catalog of standards and supporting documents; stores documents in .PDF; features a fast, flexible search function; and is updated quarterly. These products are also available in network versions; call 1-724-772-7144 or e-mail elecpubs@sae.org for more information.

- [SAE Aerospace Standards on CD-ROM](#)

List price \$2,915 / ISBN 0-7680-1467-0
Order no. CDAS-2006)

- [SAE Aerospace Material Specifications on CD-ROM](#)

List price \$3,475 / ISBN 0-7680-1463-8
Order no. CDAMS-2006

2006 Aerospace Standards Index

Lists all Aerospace Standards (AS), Aerospace Recommended Practices (ARP), Aerospace Information (AIR), and Aerospace Resource Documents (ARD) published by SAE. Each listing includes title, number, key words, new and revised documents, and DODISS-adopted documents. Quantity available. Standing orders are accepted.

(List price \$65 / Member price \$52 / ISBN 0-7680-1668-1
Order no. ASIN2006)

January 2006 AMS Index

Complete AMS library indexed by number and seven subject areas: Aircraft Maintenance Chemicals Tolerances; Quality Control; Processes; Non-Metallic Materials and Processes; Metals; and Parts. "Similar Specifications Index" which cross-references ASTM, AWS, Defense, Federal, and Military. Published in July and January.

(List price \$75 / Member price \$60 / ISBN 0-7680-1667-3
Order no. AMSJAN-2006)
