EXPOSCANS

The **ExpoScan** is the latest in improved Lead Generation Systems. ExpoScan makes it easier to collect your leads and more effectively use these leads to increase sales revenue and expand the scope of your business. ExpoScan is a compact, mobile integrated badge reader with internal memory that does not require an electrical hookup. It has the option of an external Bluetooth printer. ExpoScan stores each lead in its memory and these leads are then made available on a secure password protected web site. At the end of the show just drop off the ExpoScan unit and the data will be immediately downloaded to your secure web site for your continual use for up to 90 days after the show. No waiting to download your data on-site or having the possibility of your leads getting lost.

PRINTER

The **Printer Option** provides a thermal printer that does not require an electrical hookup and automatically produces a complete lead form which includes the ID#, name, title, company name, address, phone, fax, email, demographic codes, and the time and date visited, as well as ample room to write notes. 58mm thermal printer, prints 1000+ leads on a single charge. Bluetooth® technology.

The **Qualify Option** allows easy selection of qualifying criteria for each lead by use of the Blackberry mouse.

EXPOREAD

The **ExpoRead** includes a new compact bar code badge reader that connects directly to your own laptop or desktop computer. When a badge is read the full content of the attendee record is displayed and stored. The ExpoRead can be upgraded to the ExpoSoft option.

The **ExpoSoft Upgrade** gives you the ability to use an intuitive graphic interface on your computer to easily program up to 8 customizable interactive questions (products, size of budget, follow up actions, etc.) with up to 14 answers each. The system allows for free form notes, database searching, and editing of the data. ExpoSoft generates these qualified leads in standard importing formats for easy transfer to other programs. If you have a printer attached to your computer it can be activated to produce lead forms in your booth.

QUICK CHOICE GRID

	Data Storage/Downloads	Lead Printing Options	Qualifier Options	Capacity	Power	PC Required
