## Prices for Oil Head Back to Record Levels

**Saudi Call for More Output Does Not Impress Markets**

By JONATHAN WEISSMAN  
Washington Post Staff Writer

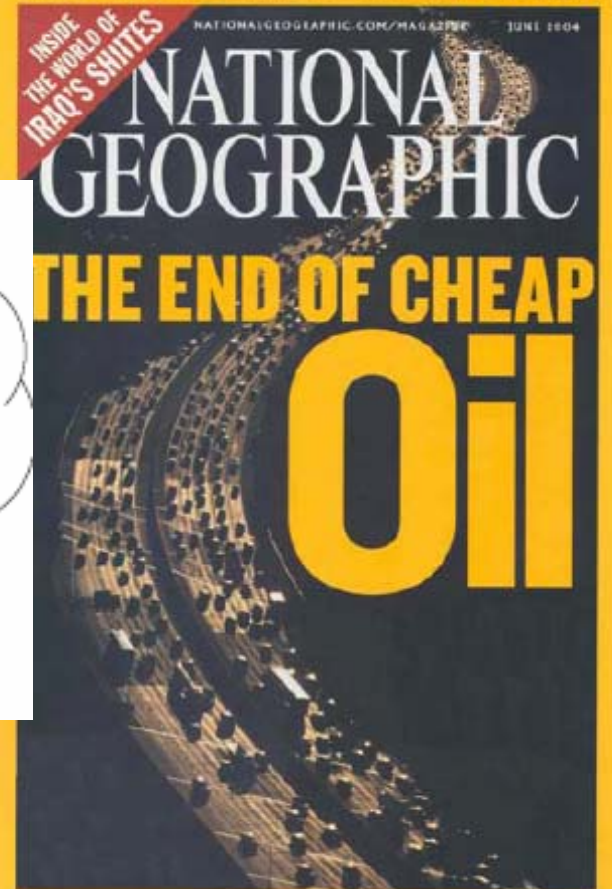

Oil prices climbed back into record territory yesterday after energy traders shrugged off pledges by Saudi Arabia to increase production and focused instead on OPEC dissent and the shutdown of a major oil platform in the Gulf of Mexico.

Gasoline prices, meanwhile, continued their steady upward march. Pump prices for regular unleaded gasoline increased 4.7 cents in the past week, to a national average price of \$2.064 a gallon, the Energy Department's Energy Information Administration said yesterday.

Regular unleaded prices rose nearly a penny in Maryland to an average of \$2.015, while Virginia prices climbed 1 cent to \$1.994, according to the AAA motor club survey. Experts said it's likely gasoline prices will keep rising as the United States heads into the vacation-heavy summer driving season, re-
