Events and Exhibits

2010 Aerospace Manufacturing and Automated Fastening Conference & Exhibition

September 28-30, 2010

Wichita, Kansas, USA

sae.org/events/amaf

AMAF provides a forum for the aerospace community to present and discuss current and future challenges, opportunities, and requirements of next-generation aircraft R&D, products, and systems. Technical sessions, panel discussions, and keynote presentations are integrated in a 3-day program that provides value to engineers, scientists, designers, program managers, and operators in industry as well as government and research facilities. AMAF encourages a broad spectrum of manuscript topics applicable to both Commercial and Military Aviation.

2010 Power Systems Conference

November 2-4, 2010

Fort Worth, Texas, USA

sae.org/events/psc

The SAE Power Systems Conference will highlight past successes and ongoing efforts, as well as perceived future impediments to fielding new technologies from the user perspective for military and commercial aerospace and other military power system applications. The 2010 conference will include a focus on Systems Integration and Optimized Vehicle Energy Use. The conference will provide a forum that addresses the most recent technical achievements and a mechanism for the user communities to discuss processes and future steps.

Other SAE Aerospace Events include:
