SAE International™

Since 1989, SAE International and SAE of Japan have co-organized the Small Engine Technology Conference. This year's main focus will be to address how the global small engine industry is affected by pending environmental regulations as well as alternative fuel challenges. Additionally, many other issues will be discussed such as advances in two-stroke engine design and motorcycle design and simulation.

Hot Topics:

- Environmental Impacts
- Advances in Two-Stroke Engine Design
- Alternative Fuels
