

General Regulations

Insurance

The contracted decorating service or SAE will not be responsible for any loss or damage of any kind. It is suggested that the exhibitors contact their insurance brokers to determine the possibility of obtaining a rider to cover their shipments from the time they leave home premises until deliveries reach final destinations. SAE insurance coverage does not cover loss or theft of exhibit equipment or articles of equipment on display. It is recommended, therefore, that all exhibitors secure fire and theft, personal liability and property damage insurance to protect them against loss or claims. SAE does not assume any liability from theft at the show site.

Exhibit Security

Every reasonable precaution will be taken to protect property during non-exhibition hours. No unauthorized personnel will be permitted in the exhibit area before or after exhibition hours. Guard service during non-show hours will be provided in the exhibit hall. However, it is unwise to leave small items of value such as laptop computers, briefcases, cameras, giveaways, etc., in your display while it is not staffed. It is suggested that all small items of value be removed from your display area each night. Advise SAE of any valuable shipment. It can be specially handled and moved to the security room. Thefts or misplacement of materials should be reported immediately to SAE so that appropriate reports are filed with security. ***SAE does not assume any liability for thefts from the show site.***

Selling on Exhibit Floor

Exhibitor agrees, without exception, that no selling, order-taking, or recruiting of personnel will occur in the display area or within other convention facilities provided.

Cameras

The taking of photos, videos, etc. is prohibited by attendees at any time. Exhibitors are permitted to take photographs, videos, etc., of their own booth only provided they receive a camera pass from SAE. Media may take photographs providing they have the exhibitor's permission and are displaying the appropriate media badge.

Drawings, Contests, Raffles

Drawing, contests and raffles must have an educational or technical orientation and must comply with all laws or regulations which may apply to such events. It is the responsibility of the Exhibitor holding the drawing, contest, or raffle to determine if the event is in compliance with all applicable laws or regulations. Appropriate legal verification of compliance must be submitted to SAE Exhibition Management which must pre-approve all drawings, contests, and raffles. Money may not be exchanged on the exhibition floor. Prizes should be of modest value and must be awarded away from the Exhibition. No prize should have more than a \$100 retail value.

Drawings, Contests, Raffles (Continued)

Drawings, contests, and raffles are discouraged as a means of attracting attention to exhibitor's booths. However, if used, SAE Exhibition management suggests that contests of any kind be directly related to the exhibit. For example, in any contest, the exhibitor should ask questions, or review material, directly related to the products or developments being displayed.

Music Prohibition

As a reminder the use of music is prohibited (protected by copyright laws). If such music is an integral part of your exhibit, you must obtain a release from the composer or the licensing agency such as ASCAP or BMI to use the music. Please forward copies of those documents to show management.

Mobile Vehicle Regulations

Display vehicles must have less than 1/8 tank of fuel and a taped or locked gas cap. The battery must be disconnected and taped and a fire extinguisher is recommended to be near the car at all times.

Smoking

Smoking is prohibited at all SAE events.

Fire Regulations

The Reno Fire and Rescue Departments require the following regulations be observed at all times through the COMPLEX:

- Flammable decorations or flammable decorative materials are prohibited.
- All draperies, drops, curtains, and table coverings used are to be noncombustible, inherently flame resistant, or treated and maintained fire resistant.
- The Fire Marshall may require proof that the materials used are fire resistant or have been treated to be fire resistant.
- Open flame, candles, torches, etc., are prohibited.
- No covered structures, such as tents, roofs, or overhead coverings, are allowed on any display in a building equipped with fire sprinklers without prior approval of the Fire Marshall.
- Blockage of exit signs or doors by displays or banners is strictly prohibited. An unobstructed aisle (the width of each set of exit doors) must be left directly from the flow of traffic to the exit doors.
- All utility panels, fire hose cabinets, standpipes, fire extinguishers and fire alarms must remain visible and accessible at all times.
- Drapes, decorations, bunting and other decorative materials must be fire retardant and/or properly treated to meet the requirements of flame proofing.
- Flammable liquids of any sort are prohibited.

Terms and Conditions

Please refer to the "SAE Terms and Conditions" included in this manual for additional information.
