

29th Sep 2007

Dear Sir / Madam,

Greetings from MARUTI SUZUKI & SAE INDIA!!

SAE INDIA in association with SAE International and FISITA is organizing the 5th International Mobility Conference at New-Delhi, India (SIIMC 2008) from 9th to 11th January, 2008.

The conference will focus on key technology issues relevant to mobility engineering such as Safety, Design, Electronics, Fuels & Environment. A large number of national & international delegates have registered and many technical papers have already been received. The conference brochure is enclosed for your reference.

Alongside the conference, we are also planning to have an exclusive area for exposition for organisation like yours to showcase products, capabilities and systems to the mobility community. Being a prominent member of the mobility community, I invite your organisation to whole heartedly participate in this conference & exposition.

The charges for the stalls have been kept very reasonable. As the no of stalls are limited, the stall booking and allotment will be done on first come-first serve basis. The exposition layout is enclosed for your ready reference.

I am looking forward to your co-operation in this regard. An early confirmation regarding participation in the exposition may pl be sent by return mail.

With Warm Regards,

(C.V. RAMAN)

CGM (Engineering)
Maruti Suzuki India Limited
&
Co-Chairman, Exposition Committee,
SIIMC 2008

PS: You are requested to kindly fill up the enclosed "SIIMC 2008- Exposition Registration Form-01" and send it with requisite details to the address given in the form.
