Automatic Dependent Surveillance—Broadcast (ADS-B) Symposium

September 29 – 30, 2009

National Transportation Safety Board (NTSB) Training Center
Ashburn, Virginia, USA

SAE has added a new symposium to its collection of aerospace events—Automatic Dependent Surveillance-Broadcast (ADS-B)—which will provide up-to-date development/engineering information related to ADS-B and its companion technologies. Day one topics will be presented from a United States perspective; day two topics will focus on a global perspective.

Attendees of this symposium will not only learn how to quickly adapt to this technology, but also how to derive significant benefits from this new generation of satellite intensive Air Traffic Management (ATM) system.

What to Expect

Topics of Discussion

- ADS-B in Operations
- ADS-B Ground Implementation
- ADS-B Applications and Charting
- Avionics Management

Special Events

- Keynote Presentation: Marion Blakey, President and CEO of the Aerospace Industries Association
- U.S. and Global Perspective Plenary Sessions featuring high level presenters, including Vincent Capezuto, Director of Surveillance and Broadcast Services, Federal Aviation Administration (FAA)
- TWA Flight 800 Briefing

Event Organizing Committee:

Chairman, Michael Richardson, Principal Engineer, Cessna Aircraft Co.

Steven Hampton, Professor, Embry-Riddle Aeronautical University

Richard Jenning, Senior Avionics Engineer, Federal Aviation Administration

Amy Kirkham, Regulus Group, LLC
