## Sustainable Mobility Applications for Engineering, 2009

The 14 papers in this Special Publication from the 2009 SAE World Congress discuss sustainable mobility applications for engineering. Topics include: the analysis, improvement and sustainability of automotive related materials, emissions and serviceability; sustainable and energy efficient manufacturing; sustainable GHG emissions; enhanced global mobility; and traffic congestion reduction. (April, 2009)

## Hybrid Gasoline-Electric Vehicle Development

By John M. German

This book chronicles recent advances in hybrid vehicle technologies and looks ahead to future hybrid vehicle development, with a focus on hybrid vehicles with electrical energy storage systems and potential synergies provided by the electric power. (April, 2005)

**Introduction to Hybrid Powertrains (I.D.#C0903)**  
July 7, 2009; 11:30 a.m. – 1:30 p.m. ET

**Basic Hybrid and Electric Vehicle Safety Webinar (I.D.#C0904)**  
July 9, 2009; 11:30 a.m. – 1:30 p.m. ET

**Plug-In Hybrids: Opportunities and Challenges (I.D.#C0905)**  
July 14, 2009; 11:30 a.m. – 1:30 p.m. ET

**Hybrid and Electric Vehicles: Current Production, Future Strategies (I.D.#C0906)**  
July 16, 2009; 11:30 a.m. – 1:30 p.m. ET

In today's high tech world, transferring information to knowledge quickly can give you the competitive edge.

Whether you are looking for a historical perspective or up-to-the-minute developments, the information you need can be found in our vast repository of individual technical papers. Each year we publish over 2,700 technical papers written by industry experts worldwide, your peers and competitors.

SAE offers several options for purchasing these papers. Visit [store.sae.org/technical/papers](http://store.sae.org/technical/papers) or call one of our Customer Sales Representatives to customize a plan to meet your information needs.
