

SAE Oil Filter Test Procedure

2009 Edition

List of Chapters:

Section 1. Scope	1	Section 7. Single-Pass Particle	
Section 2. Foreword	3	Retention Capability Test	25
Section 3. Normative Reference	5	7.1 Scope	25
3.1 SAE Publications	5	7.2 Test Materials	25
3.2 ISO Publications	5	7.3 Test Apparatus	25
3.3 NFPA Publications	5	7.4 Test Preparation	27
Section 4. Accuracy of Measuring		7.5 System Validation Procedure	27
Instruments and Test Conditions	7	7.6 Test Procedure	27
Section 5. Resistance to Flow	9	7.7 Evaluation of Results	28
5.1 Scope	9	Section 8. Media Migration Test	29
5.2 Test Material	9	8.1 Scope	29
5.3 Test Equipment	9	8.2 Test Materials	29
5.4 Test Preparation	9	8.3 Test Apparatus	29
5.5 Test Procedure	9	8.4 Test Preparation	29
5.6 Presentation of Data	9	8.5 Test Procedure	29
Section 6. Filter Capacity and		8.6 Presentation of Data and	
Contaminant Removal Characteristics		Evaluation of Results	29
of Full-Flow Filters	13	Section 9. Collapse Test for Lube	
6.1 Scope	13	Oil Elements	31
6.2 Purpose	13	9.1 Scope	31
6.3 Test Equipment	13	9.2 Test Materials	31
6.4 Test Materials	13	9.3 Test Apparatus	31
6.5 Test Equipment Validation	13	9.4 Test Preparation	31
6.6 Test Preparation	18	9.5 Test Procedure	31
6.7 Test Procedure	19	9.6 Presentation of Data and	
6.8 Suggested Test Conditions	20	Evaluation of Results	32
6.9 Calculation and Reporting of Test		Section 10. Inlet and Outlet	
Results	20	Anti-Drain Valve Test	33
6.10 Variations of Test Conditions	23		
6.11 Reliability of Test Results	23		

SAE Oil Filter Test Procedure

2009 Edition

Section 11. Ability to Meet Environmental Conditions	35	12.3.3 Test Apparatus	40
11.1 Scope	35	12.3.4 Test Preparation	40
11.2 Test Method for Effect of Water in the Oil on Filter Capacity	35	12.3.5 Test Procedure	40
11.2.1 Test Materials	35	12.3.6 Presentation of Data	40
11.2.2 Test Apparatus	35	12.3.7 Definition of Terms	41
11.2.3 Test Preparation	35	Section 13. Mechanical Tests	43
11.2.4 Test Procedure	35	13.1 Scope	43
11.2.5 Evaluation of Results	35	13.2 Pressure Impulse Fatigue Test	43
11.3 Test Method with High Oil Temperature for Element Integrity ...	35	13.2.1 Scope	43
11.3.1 Test Oil	35	13.2.2 Test Materials	43
11.3.2 Test Apparatus	35	13.2.3 Test Apparatus	43
11.3.3 Test Procedure	35	13.2.4 Test Preparation	44
11.3.4 Presentation of Data and Evaluation of Results	36	13.2.5 Test Procedure	45
11.4 Test Method for Determination of Oil Additive Removal by Filter	36	13.2.6 Presentation of Data	45
11.4.1 Test Materials	36	13.3 Vibration Fatigue Test	45
11.4.2 Test Apparatus	36	13.4 Hydrostatic Burst Pressure Test ...	45
11.4.3 Test Preparation	36	13.4.1 Scope	45
11.4.4 Test Procedure	36	13.4.2 Test Materials	45
11.4.5 Presentation of Data and Evaluation of Results ...	36	13.4.3 Test Apparatus	45
11.4.6 Analysis Methods for Oil Additive Contaminant ...	37	13.4.4 Test Preparation	45
11.5 Low-Temperature Sealing Characteristics of Spin-On Oil Filter Sealing Gaskets	37	13.4.5 Test Procedure	45
11.5.1 Scope	37	13.4.6 Presentation of Data	46
11.5.2 Test Materials	37	Section 14. Relief Valve Performance ...	47
11.5.3 Test Apparatus	37	14.1 Scope	47
11.5.4 Test Procedure	37	14.2 Test Material	47
Section 12. Installation and Removal ...	39	14.3 Test Apparatus	47
12.1 Installation Seal Retention	39	14.4 Test Preparation	47
12.1.1 Scope	39	14.5 Test Procedure	47
12.1.2 Test Materials, Test Apparatus, Test Preparation, Test Procedure	39	14.6 Presentation of Data	47
12.1.3 Presentation of Data	39	14.7 Definition of Terms	48
12.2 Installation Sealing Torque	39	Appendix A. Contaminants	49
12.2.1 Scope	39	1. Glass Beads	49
12.2.2 Test Material	39	2. Test Dust	49
12.2.3 Test Apparatus	39	3. Contaminant SOFTC-2A—Standard Oil Filter Test Contaminant	49
12.2.4 Test Preparation	39	Appendix B. Method for Oil Sample Analysis	51
12.2.5 Test Procedure	39	1. Scope	51
12.2.6 Presentation of Data	40	2. Summary of Method	51
12.3 Removal Torque Test Method	40	3. Analysis Method (Membrane Filtration)	51
12.3.1 Scope	40	Appendix C. Source Information	55
12.3.2 Test Material	40	Test Material Suppliers for SAE HS-806	55
		Test Equipment Suppliers for SAE HS-806	56
		Appendix D. Media Envelope Volume	57
