Range Extenders for Electric Vehicles Land, Water & Air 2012-2022

Analysis of technologies, players and market forecasts

By Dr Peter Harrop

Contents

Page

1.	EXECUTIVE SUMMARY AND CONCLUSIONS	1
1.1.	Range extender market in 2022	1
1.2.	EV Market 2012 and 2022	2
1.3.	Ten year forecast for electric cars, hybrids and their range extenders	5
1.4.	Hybrid and pure electric vehicles compared	6
1.5.	Hybrid market drivers	6
1.6.	What will be required of a range extender 2012-2022	7
1.7.	Three generations of range extender	8
1.8.	Why range extenders need lower power over the years	11
1.9.	Energy harvesting – mostly ally not alternative	14
1.10.	Key trends for range extended vehicles	14
1.11.	Combining Heating and Range-Extension for Electric Vehicles	16
1.12.	Emergency range extenders	16
2.	INTRODUCTION	19
2.1.	Types of electric vehicle	19
2.2.	Many fuels	24
2.3.	Born electric	25
2.4.	Pure electric vehicles are improving	25
2.5.	Series vs parallel hybrid	28
2.6.	Modes of operation of hybrids	28
2.6.1.	Plug in hybrids	28
2.6.2.	Charge-depleting mode	29
2.6.3.	Blended mode	29
2.6.4.	Charge-sustaining mode	30
2.6.5.	Mixed mode	30
2.7.	Microhybrid is a misnomer	30
2.8.	Deep hybridisation	31
2.9.	Battery cost and performance are key	33
2.10.	Hybrid price premium	35
2.11.	Progressing the REEV	36
2.12.	What is a range extender?	37
2.12.1.	First generation range extender technology	37
2.12.2.	Second generation range extender technology	37
2.12.3.	Radically new approaches - Hüttlin range extender	38
2.12.4.	Third generation range extender technology	39
2.13.	Market position of fuel cell range extenders	40
2.14.	Energy harvesting on and in electric vehicles	41
2.15.	Tradeoff of energy storage technologies	43

2.16.	Trend to high voltage	44
2.17.	Component choices for energy density/ power density	45
2.18.	Fuel cells rescued by batteries	46
2.19.	PEM fuel cells	49
2.20.	Trend to distributed components	50
2.21.	Trend to flatness then smart skin	51
3.	ELECTRIC VEHICLE MARKET OVERVIEW	53
3.1.	The whole picture	53
3.1.1.	Synergies	53
3.1.2.	What is excluded?	53
3.2.	Largest sectors	54
3.3.	Numbers of manufacturers	60
3.4.	Heavy industrial sector	61
3.5.	Buses	62
3.6.	The light industrial and commercial sector	62
3.7.	Two wheel and allied vehicles	63
3.8.	Cars	65
3.9.	Golf	67
3.10.	Military	67
3.11.	Marine	67
3.12.	Other	68
3.13.	Market for EV components	68
3.14.	Timelines	69
3.15.	Watch Japan, China and Korea	70
3.16.	Vacillation by some governments	71
3.17.	Healthy shakeout of the car industry	72
3.18.	Full circle back to pure EVs	72
3.19.	Winning strategies	72
4.	MARKETS AND TECHNOLOGIES FOR REEVS	75
4.1.	Range extenders for land craft	76
4.2.	Range Extenders for electric aircraft	76
4.2.1.	Military aircraft	76
4.3.	Comparisons	77
4.4.	Fuel cells in aviation	80
4.5.	Civil aircraft	82
4.6.	Potential for electric airliners	84
4.7.	Range extenders for marine craft	85
5.	RANGE EXTENDER DEVELOPERS AND MANUFACTURERS	89
5.1.	Advanced Magnet Laboratory USA	89

5.2.	Aerovironment / Protonex Technology USA	90
5.3.	Austro Engine Austria	94
5.4.	Bladon Jets UK	95
5.5.	BMW Germany	98
5.6.	Capstone Turbine Corporation USA	98
5.7.	Clarian Laboratories USA	101
5.8.	Compound Rotary Engines UK	102
5.9.	Daimler AG inc Mercedes Benz Germany	102
5.10.	DLR German Aerospace Center Germany	103
5.10.1.	Free piston range extenders	105
5.11.	EcoMotors	114
5.12.	Ener1 USA	115
5.13.	FEV USA	115
5.14.	Flight Design Germany	116
5.15.	Getrag Germany	117
5.16.	GSE USA	117
5.17.	Intelligent Energy UK	119
5.18.	Lotus Engineering UK	120
5.19.	MAHLE Powertrain UK	124
5.20.	Polaris Industries Switzerland	129
5.21.	Powertrain Technologies UK	132
5.22.	Proton Power Systems plc UK/Germany	132
5.23.	Ricardo UK	133
5.24.	Urbee Canada	133
5.25.	Volkswagen Germany	134
5.26.	Warsaw University of Technology, Poland	137
6.	RANGE EXTENDER INTEGRATORS	139
6.1.	ACAL Energy UK	139
6.2.	Altria Controls USA	139
6.3.	Ashok Leyland India	140
6.4.	Audi Germany	140
6.5.	AVL Austria	141
6.6.	Azure Dynamics USA	141
6.7.	BAE Systems UK	142
6.8.	BMW Germany	143
6.9.	Boeing Dreamworks USA	143
6.10.	Chrysler USA	144
6.11.	DesignLine New Zealand	146
6.12.	EADS Germany	146
6.13.	ENFICA-FC Italy	147
6.14.	Ford USA	154
6.15.	Frazer-Nash UK	156

6.16.	General Motors including Opel	157
6.17.	Honda Japan	159
6.18.	Howaldtswerke-Deutsche Werft Germany	160
6.19.	Hyundai Korea	161
6.20.	Igor Chak Russia	163
6.21.	Jaguar Land Rover UK	164
6.22.	Lange Aviation Germany	166
6.23.	Langford Performance Engineering Ltd UK	166
6.24.	Marion HSPD USA	167
6.25.	Pipistrel Slovenia	168
6.26.	SAIC China	169
6.27.	Skyspark Italy	170
6.28.	Suzuki Japan	171
6.29.	Tata Motors India	172
6.30.	Toyota Japan	173
6.31.	Turtle Airships Spain	179
6.32.	University of Bristol UK	180
6.33.	Université de Sherbrooke Canada	180
6.34.	University of Stuttgart Germany	182
6.35.	Vision Motor Corporation USA	183
6.36.	Volvo Sweden/ China	184
6.37.	Yo-Avto Russia	187
7.	MARKET DRIVERS AND FORECASTS	189
7.1.	Market drivers and impediments	189
7.2.	Funding as a market driver	190
7.3.	EV Market 2011 and 2021	192
7.4.	Ten year forecast for electric cars, hybrids and their range extenders	193
7.5.	Three generations of range extender	194
	APPENDIX 1: IDTECHEX PUBLICATIONS AND CONSULTANCY	199
	APPENDIX 2: FUEL CELL 2000 SUMMARY OF FUEL CELL BUS TRIALS TO 2010	217

Tables

	Page	
Table 1.1	Numbers of EVs, in thousands, sold globally, 2012-2022, by applicational sector	2
Table 1.2	Ex factory unit price of EVs, in thousands of US dollars, sold globally, 2012-2022, by applicational sector, rounded	3
Table 1.3	Ex factory value of EVs, in billions of US dollars, sold globally, 2012-2022, by applicational sector, rounded	4
Table 1.4	Number of hybrid and pure electric cars sold and those that plug in thousands 2012-2022	5
Table 1.5	Some primary hybrid market drivers	7
Table 1.6	Three generations of range extender with examples of construction, manufacturer and power output	9
Table 3.1	Main market drivers 2012-2022	55
Table 3.2	Numbers of EVs, in thousands, sold globally, 2012-2022, by applicational sector	56
Table 3.3	Ex factory unit price of EVs, in thousands of US dollars, sold globally, 2012-2022, by applicational sector, rounded	57
Table 3.4	Ex factory value of EVs, in billions of US dollars, sold globally, 2012-2022, by applicational sector, rounded	59
Table 3.5	Approximate number of manufacturers of electric vehicles worldwide in 2010 by application with numbers for China	60
Table 3.6	Global sales of heavy industrial EVs by numbers, ex factory unit price and total value 2012-2022, rounded	61
Table 3.7	Global sales of buses, ex factory unit price and total value 2012-2022, rounded	62
Table 3.8	Global sales of light industrial and commercial EVs excluding buses by numbers thousands, ex factory unit price in thousands of dollars and total value in billions of dollars 2012-2022, rounded	62
Table 3.9	Global sales of EVs used as mobility aids for the disabled by number, ex factory unit price in thousands of dollars and total value in billions of dollars, 2012-2022, rounded	63
Table 3.10	Global sales of two wheel and allied EVs number, ex factory unit price in thousands of dollars and total value in billions of dollars 2012-2022, rounded	65
Table 3.11	Global sales of electric cars number thousands, ex factory unit price in thousands of dollars and total value in billions of dollars 2012-2022, rounded	65
Table 3.12	Value of the hybrid, pure electric and total electric car market in billions of dollars 2010-2020	66
Table 3.13	Number of hybrid and pure electric cars plugged in and the total number in thousands 2011-2021	66
Table 3.14	Global sales of electric golf cars and motorised caddies in number thousands, ex factory unit price in thousands of dollars and total value in billions of dollars 2012-2022, rounded	67
Table 3.15	Global sales of electric military vehicles in number thousands, ex factory unit price in thousands of dollars and total value in billions of dollars 2012-2022, rounded	67
Table 3.16	Global sales of electric marine craft in number thousands, ex factory unit price in thousands of dollars and total value in billions of dollars 2012-2022, rounded	68

Table 3.17	Global sales of other electric vehicles (including civil aircraft and robot) in number thousands, ex factory unit price in thousands of dollars and total value in billions of dollars 2012-2022, rounded	68
Table 3.18	Components and subsystems fitted in new electric vehicles 2010-2020 in thousands	69
