An IHS Global Insight Company

Automotive Electrification - Japanese Perspective

Contents

Synopsis	10
China and South Korea are Wild Cards.....	10
MAIN CONCLUSIONS.....	14
Kanagawa Prefecture Bus Project.....	24
Lithium Battery Plants Coming on Stream	29
MARKET FORECASTS.....	41
JAPANESE AUTOMAKERS	52
TOYOTA: HYBRIDS ARE KING.....	55
EV Offerings	55
More Hybrids on the Way	56
Third Generation Prius - Hybrid System Costs Down 30%	57
2020 Hybrid Sales Target: Likely.....	60
HONDA: WILL REMAIN THE WORLD'S LEADER IN 'MILD' HYBRIDS.....	65
'Motor-Assist' Still Honda's Way, Though Sales Down in 2010	67
The Insight.....	67
The Switch to Lithium	69
'Idle Stop' Down the Priority List.....	70
Honda's 2020 Hybrid Sales Target: Likely.....	70
NISSAN - MAKES BIG COMMITMENT TO EVS.....	72
Leaf Sales Plan	73
The Case For, the Case Against	75
Nissan's 2020 EV Sales Target: Unlikely	76
Nissan's Rejection of Hybrids - A Mistake?.....	77
Fuga Hybrid	78
MITSUBISHI - THE EARLY EV LEADER	81
Plug-In Hybrid Technology for Larger Vehicles... ..	82
2020 Sales Target: Very Unlikely.....	83
i-MiEV Specs.....	83
SUBARU: TOO LITTLE TOO SOON.....	86
Stella Plug-In EV Specs & Packaging	87
2020 Sales Target: Very Unlikely.....	88
MAZDA: FOCUS ON IMPROVING IC ENGINES, REDUCING VEHICLE WEIGHT.....	89
30% Fuel Efficiency Target By 2015	93
Mazda Hybrid, By Way Of Toyota, in 2013.....	95
Premacy Hydrogen RE Hybrid	95
AT TOYOTA AND HONDA, FUEL CELL VEHICLES COULD COME AFTER PLUG-IN HYBRIDS	98
Toyota's FCHV-ADV Covers 800 Km... ..	100
Honda FCX Clarity	102
SUPERCAPACITORS - OUTLOOK PROMISING.....	108

NEDO Targets Supercapacitor Technology	109
PROSPECTS FOR JAPANESE SUPPLIERS:	111
Supplier Winners	117
Panasonic Corp.....	117
Panasonic Acquires Sanyo Electric	118
Primearth EV Energy Co.....	119
Denso Corp.	125
GS Yuasa Corp.	129
LEV 50 Specifications:.....	129
Production Plans	129
NEC Corp.	135
Unanswered Questions.....	136
Lithium History	138
Hitachi Automotive Systems, Ltd.	139
New Lithium Battery Plant.....	141
Next Generation Batteries	141
Toshiba Corp.	142
Yazaki Corp. & Sumitomo Wiring Systems, Ltd.	144
Vii.10. Keihin Corp.	150
Nippon Steel Corp. & Jfe Holdings Inc.	151
Aisin Aw Co., Ltd.....	153
CKD CORP.....	154
SUPPLIERS BY MODEL.....	158
Toyota Prius.....	158
Toyota Camry Hybrid	158
Toyota Lexus Ls600h	158
Toyota Lexus Gs450h	159
Honda Insight.....	159
Mitsubishi I-MiEV.....	160
Nissan Altima Hybrid	160
Nissan Fuga Hybrid/Infiniti M35	160
Nissan Leaf EV	160
Subaru Stella Plug-In EV	161
Mazda Tribute Hybrid	161
MINI PLANT REPORTS.....	162
Peve's Omori No. 3 Plant - The Industry's State Of The Art.....	162
Toyota's Tsutsumi Plant	165
Other Prius Assembly Operations	173
Other Toyota Hybrid Assembly Operations... ..	174
Toyota's Georgetown & Nissan's Smyrna Plants.....	175
Mitsubishi's Mizushima Plant	181
Nissan's Oppama Plant	184

List of Figures and Tables

Table 1: 2020 GLOBAL HYBRID, EV SALES FORECAST (in units).....	12
Table 2: Japanese Carmaker 2020 Hybrid & EV Sales Forecast (in units).....	12
Table 3: Japanese Government Subsidies for EVs.....	16
Table 4: Prefectures Where EV Incentives Are Being Offered	16
Table 5: Plug-In Hybrid/EV Prefectural Projects*	17
Table 6: Zero Emission Cars in Japan In 2020.....	17
Table 7: Japanese Government Hybrid & EV Penetration Plan	18
Table 8: METI History of Financial Support For Lithium Battery Development - Fiscal 1992 - Fiscal 2010	18
Table 9: Sales History by Model Segment in Japan	20
Table 10: Main Components Eliminated in EVs.....	22
Table 11: EV Charging Stations in Japan - Present & Future Plans	23
Table 12: First-Generation EV Sales History.....	26
Table 13: Diesel Hybrids under Development, on the Market in Europe	27
Table 14: Japanese Government Targets for EVs & Fuel Cell Vehicles	28
Table 15: Rare Metals used in Hybrids.....	29
Table 16: Japanese Lithium Battery Production Capacity	31
Table 17: Hyundai's Sonata Hybrid, Schematic showing Hyundai's Sonata Hybrid drivetrain layout	32
Table 18: Cashholding Trends of Japanese Carmakers (Unit: billions of yen).....	33
Table 19: Toyota Prius Plug-In Hybrid Lease Timetable:	36
Table 20: Average Fuel Efficiency Performance of Gasoline-Powered Cars in Japan (In Kpl)	36
Table 21: Alternative Energy Vehicles in Japan.....	37
Table 22: Energy Demand Forecast By Country (Tons Of Oil Equivalent)	43
Table 23: Fuel Efficiency/CO ₂ Regulations for Passenger Cars.....	45
Table 24: Lithium Battery Material Costs.....	46
Table 25: Global Battery Demand Forecast (In Units)	49
Table 26: Global Battery Demand Forecast (In Yen).....	50
Table 27: Unit Battery Price Forecast (In Yen)	50
Table 28: Japanese Hybrid/EV Sales by Manufacturer & Model	52
Table 29: Japanese Hybrid/EV Sales by Manufacturer	54
