

# The Racing & High-Performance Tire

## Using the Tires to Tune for Grip and Balance

### List of Chapters

#### Illustrations and Tables

#### Introduction

#### Chapter 1 How a Car Turns a Corner

Vehicle, Tires, Driver

Slip Angle

Footsteps

Lateral Force vs. Slip Angle

An Automobile Is Easier to Make  
Than a Tire

The Complexity Is Daunting

#### Chapter 2 Rubber

Rubber History

Obsession

Serendipity

The Beginnings of a Recipe

Parallel Development

Synthetic Rubber

Rubber Is a Polymer

Rubber Is Elastic and Viscoelastic

Creep Test

Mechanical Model for Rubber

Speed Sensitivity

Rubber Response to Cyclic Stress

The Glass Transition Temperature

#### Chapter 3 Rubber Friction

Simple Friction

Rubber Friction

Adhesion

Deformation: Mechanical Keying

Tearing and Wear

Total Friction

Deformation Friction and

Viscoelasticity

Adhesive Friction and Surface

Deformation

Friction: A Combination of Forces

Road Surface Effects

Shape

Slope of the Asperities

The Myth of Off-Line in the Rain

The Load Sensitivity of Rubber  
Friction

Temperature and Speed Effects

#### Chapter 4 Rubber Compounding

Which Rubber?

Recipe for a Tire

Carbon Black Reinforcement

Vulcanization

Additive Development

#### Chapter 5 Tire Design and Manufacture

Structure of the Pneumatic Tire

Modulus of Elasticity

Fatigue Strength

Fatigue Failure

Tire Design

Contact Patch Load Effects

Structural Distortion Due to Vertical  
Load

Load and Internal Pressure

A Loading Example

Overloading and Underinflation

Braking and Acceleration Forces

Bias-Ply or Radial?

Street Tires vs. Race Tires

Wider Wheels

Tire Construction

Construction Details

Reinforcing Cords

Filament, Thread, Yarn, Cord

Adhesive Coatings on the Cords

Tread Design

Tread Patterns for a Wet Surface

Tire Noise

Special Case: Sports-Utility Vehicles

Manufacturing Process

Tread Material

Assembly

Tire Nonuniformities

The Hazards of Batch Processing

Manufacturing Developments

The Tire Industry Isn't Healthy

Automated Manufacturing

#### Chapter 6 Tire Behavior

How a Car Turns a Corner: Revisited

Slip Angle

Lateral Force vs. Slip Angle

# The Racing & High-Performance Tire

## Using the Tires to Tune for Grip and Balance

- Longitudinal Forces
- Combined Forces
- Friction Circle
- Lateral Deformation of the Tread
- Wide Tires Are Better
  - Why Wider Tires Are Better
- Self-Aligning Torque
- Vertical Forces in the Contact Patch
- Dynamic Tire Response to Steering
- Rolling Resistance
- Induced Drag
- Radials Are More Efficient
- Camber Thrust
  - Construction-Induced Camber
- Stagger
- Internal Pressure
- Tire Dynamics: Standing Waves
- Frequency Response
- Load Sensitivity of Tires
- Lateral Speed of the Tire

### Chapter 7 Balance and Control

- Oversteer and Understeer
- Consequences of Imbalance
- The Driver Is Important
- What the Tires See
- Again, Drivers Can Make a Difference
- Control at the Limit of Adhesion
- So Tight It's Loose

### Chapter 8 Race Tires

- Break-In
- Scrubbing Race Tires
  - Pre-Scrubbing Tires
  - Shaving Tires
- Tire Temperature and Pressure
  - Taking Tire Temperatures
- Tire Give-Up
- Tire Wars: Goodyear vs. Firestone
  - Here Comes Firestone
  - Firestone Tires Proved Superior
  - Less Give-Up Can Be a Problem
  - Why Didn't Goodyear Respond with a Competitive Tire?
- NASCAR-Hoosier/Goodyear
  - Comparisons at Daytona
  - Asymmetrical Sidewalls
- Heat Cycles
- Abrasion and Graining
  - How Firestone Whipped Goodyear
- Graining on Dirt
- Graining on Pavement

- Blistering
- Tire Treatments
  - Tire Treatments Are Widely Available
  - Hot Lap, Hot Lap II, and LMT
  - Did Gordon's Car Use a Tire Treatment?
- Tire Companies Do Not Like Tire Treatments
- A Tire Guy Speaks Out

### Chapter 9 Tire Testing and Development

- Tire Testing
  - How Important Is Tire Testing to a Team?
  - Driver Feedback Helps Develop Tires
- Paul Gentilozzi on Tire Testing
- Mario Andretti: Tire Development History
  - Interesting Times Indeed!
- 2002 Formula 1 Tire War
  - WLF Transform
  - Ten Ferrari Engineers at Bridgestone?
  - Barrichello's Tire/??? Incident at the USGP

### Chapter 10 Tire Performance Data

- Engineers Want More and Better Data
- Simulation Software
- Typical Tire Data
  - Spring Rate
  - Rolling Radius
  - Lateral Force vs. Slip Angle
  - Load Sensitivity
  - Self-Aligning Torque
  - Formula 1 Tire Data
- MTS Flat-Trac Tire Testing System
- Missing information
- Motorsports Drives Development

### Chapter 11 Basic Vehicle Dynamics

- The Physics: Newton's Laws of Motion
  - Inertia and Units
  - $F=MA$  for a Circular Path
- Inertial Forces and Lateral Weight Transfer
  - Weight Transfer Calculation
  - Fractional Weight Transfer
- CG and Lateral Weight Transfer

# The Racing & High-Performance Tire

## Using the Tires to Tune for Grip and Balance

### Examples

Tire Roll

### Longitudinal Weight Transfer

### Suspension 'Anti' Geometry

Anti-Dive and Anti-Lift with Braking

Anti-Squat with Acceleration

Anti Trade-Offs

### Lower CG Is Better

CG Is Important: Winston Cup Cars at Martinsville

### Typical Independent Suspension

### Roll Centers

### Cornering Forces

Jacking Force

Roll Center Position Trade-Offs

Timing of Forces

Dynamic Suspension Movement

Special Case: The Panhard Rod

### Details of Lateral Weight Transfer

Unsprung Weight Transfer

Sprung Weight Transfer: Direct

Forces and Roll Forces

Direct-Force Weight Transfer

Roll-Force Weight Transfer

Weight Transfer Calculation

Roll Angle

## Chapter 12 Suspension Geometry

### Camber Control

Roll- and Ride-Height Effects

Aerodynamic Constraints

### Steering Geometry

Caster

Karts and Caster and Tires

Mechanical Trail

### Ackermann Steering Geometry

Toe

Bump Steer, Roll Steer

## Chapter 13 Tuning for Grip and Balance

### Tuning the Racecar By Levels

Ride Height

### Static Weight Distribution

Moment of Inertia

Corner Weights

### Spring Rate, Wheel Rate, Tire Rate

Bell Cranks and Third Springs

### Where to Start with the Basic Setup

Starting Points-Springs and Bars

Sizing Anti-Roll Bars

Suspension Antis

### Diagonal Weight Transfer: Wedge

Using Wedge to Adjust Balance

A Static Adjustment with Dynamic Results

A Doubly Powerful Adjustment

Cockpit-Adjustable Wedge

Wedge Summary

Wedge with Tire Pressures

### Dynamic Tire Loading

Roll Resistance

Roll Resistance Distribution

Roll Resistance Trade-Offs

Geometric Stiffness

Choosing Initial Roll Centers

Roll Center Stability

Roll Timing

### Spring Preload

### Springs, Bars, and Dampers

The Anti-Roll Bar

### Skid-Pad Testing

Springs and Bars: Choices

### Damper Detail

Damper Adjustments

Tire Loads for Specific Adjustments

### Index

### References

### Resources
