SAE A-5 and A-6 Meeting with Asian Aerospace Focus

Why Hawaii ?

One of our Strategic Goals is to increase international involvement:

- International meetings, since 2002, have increased worldwide participation
- We have desired to have a meeting in Asia due to the major aerospace business going on there
- The logistics and expense to have a meeting in Asia has proven impractical for our committees
- Hawaii meeting location has resulted in a strong response from both regular attendees and key Asian participants
