Defense Maintenance Competition Team Rules December 17-19, 2019; Tampa Convention Center; Tampa, FL

1. Each team must consist of three team members.
2. Competitors must be either certificated by a national aviation authority (e.g., hold an FAA mechanic certificate), enrolled in a certificated aviation maintenance technician school, employed by a certificated repair station or manufacturing facility, or a member of the armed forces.
3. Each team is allowed, but not required, to designate alternate(s) in the event a member is not able to participate the day of the competition.
4. School category teams are comprised of three currently-enrolled students. Individuals that graduated the institution in the last six months that are not currently employed by an aviation-related company are also eligible to compete. Instructors are not eligible to compete.
5. Teams have 15 minutes to complete each competitive event.
6. There is a five-minute break between the end of one event and the beginning of the next event. Competitors present in the five minutes preceding the event start time may review task cards, materials, or prepare for the event, as permitted by the event judge. Time will not be credited for competitors arriving after the designated start time.
7. Each team member must sign a release of liability to participate, completed at check-in.
8. Each event has a designated number of team member(s) eligible to participate. For events that require less than three team members, the team will assign member(s) of their choice to compete.
9. If a team member completes an event before the 15-minute time limit, he/she may assist fellow team member(s) in other events.
10. Scores are calculated based on the standard event score sheet.
11. Event sponsors provide judges for each event. Scores are calculated based on the standard score sheet, and at the judge's discretion. Problems and/or questions may be addressed during an event at the judge's discretion. Judges may stop the clock to remedy problems or answer a question at their discretion. Appeals to a judge decision may be brought to the AMC chairman.
12. Scores provided verbally at the completion of an event are not official until properly recorded.
13. Scores provided to the scoring committee are considered final once received. The DMC chairman reserves the right to modify final scores up until the awards ceremony.
14. The three teams with the lowest score in each category will be recognized at the awards ceremony.

15. The DMC chairman reserves the right to remove any team member(s) from the competition for, but not limited to, unprofessional behavior, cheating, etc.
16. The DMC committee reserves the right to alter events and/or rules prior to or during the competition and will make best efforts to notify all team members of the change.
17. Participants are expected to observe personal protection equipment requirements throughout the competition. Failure to observe safety practices will result in penalties.
18. All required tools and protection equipment will be provided by event sponsors. Personal tools are not allowed.
19. Judges will receive all final, tallied scores for their event the evening before the awards ceremony to ensure final scores are correct and consistent with their own notes.

For additional questions or information regarding the competition, please contact James Sherman, SAE International, directly at james.sherman@sae.org or 724.772.4034.
