Apache Project Management Office

Mr. Forrest Collier
Deputy Project Manager

AH-64 Apache Attack Helicopter

Material Readiness Considerations

Apache Project Office

| | |
|--|--|
| Program Scope | Management for AH-64D/E Longbow Apache, Sensors, and Training Devices |
| Proponent | US Army ASAALT, PEO Aviation, Apache Attack Helicopter Project Office |
| Lifecycle Phase | AH-64E – Production and Fielding AH-64D – Sustainment |
| Current Inventory (US): | AH-64E: 309 AH64D: 421 |
| Material Readiness Roles & Responsibilities | Apache PM: Product Support and Fleet Management Aviation & Missile Command (AMCOM): Spares, Maintenance, and Overhaul |
| Support Strategy | Hybrid: Organic (20%) & PBL (80%) |

Challenges to Materiel Readiness

- Fleet Size & Distribution
- Configuration Complexity
- Technical Data Availability

Materiel Readiness Enablers

- Planning for supportability at project initiation
- Designing for Reliability
- Supply Chain Quality
- Configuration Management
- Contract strategy

Mission - Develop, produce, field, and sustain the world's premier attack helicopter and support all those who use it
