

Logistics Management Specialist Certificate Program

The Certificate Program is a well-defined career path tied to the 12 competencies to train, educate, and develop multifunctional logisticians, competent in two of three functional areas - supply, maintenance, and transportation. The program aids personnel with managing their career more effectively, demonstrates their high level commitment to continuous improvement, and ensures readiness to support the Army's evolving mission. End-state: Talent Pool of Master Logisticians.

Sustaining combat readiness!
