

AeroTech® 2022

March 15–17, 2022

PASADENA, CALIFORNIA & ONLINE

Call for Papers and Presentations

SAE International's AeroTech is the premier global aerospace technology conference and exhibition focused on virtually every facet of modern aerospace & defense mobility, including platform, system, subsystem, and component research & development, engineering, manufacturing, assembly, test and verification, certification, integration, deployment, maintenance, and continued safety, security, and sustainability.

Innovators and thought-leaders from across the global aerospace community convene annually at AeroTech to share the latest technical knowledge and innovations, discuss real-world challenges and practical solutions, discover new technologies and techniques, uncover trends and opportunities, and network, problem-solve, and partner.

A hybrid event, AeroTech provides the opportunity to share expertise and innovations in-person at the physical conference and remotely in the accompanying Digital Summit.

Harness this opportunity to demonstrate your expertise and thought-leadership, present your latest work, share your knowledge, and network and collaborate with engineers, executives, regulators, researchers, scientists, academia, and other key decision makers from across the global aerospace ecosystem. sae.org/aerotech

Abstract submissions invited through August 10, 2021 for the following Technical Sessions at AeroTech:

Advanced Air Mobility

Aircraft Systems

Aero Fastening/Assembly & Tooling

Business, Economics & Forecasting

Engineering

Flight Sciences/Disruptive Technology

Manufacturing

Materials

Power, Thermal & Propulsion

Safety & Security

Please note: Speakers will be charged a nominal fee to attend this conference. [Visit the AeroTech website](http://SAE.org/AeroTech) (SAE.org/AeroTech) for more information.

Publish with SAE International's Scholarly Journals: Did you know that SAE offers a chance for you to submit a manuscript to the [SAE International Journal of Aerospace](#)? [Click to learn more](#) or contact the [Journals Managing Editor](#).

HOW TO SUBMIT AN ABSTRACT

Abstracts must be [submitted online](#) to only ONE session. Offered papers shall not have been previously published and if accepted, contributors will not release paper for publication through other media.

The following information will be required during the online submission process:

1. Tentative title
2. A summary that states the objective of the paper/presentation
3. Name of author and co-authors and all contact information
4. Selection of the most appropriate technical session

The following conditions/deadlines apply:

- Paper acceptance will be based on organizer-moderated peer review of review-ready manuscript.
- Author resources, useful in preparing your paper, are provided online at sae.org/participate/volunteer/author
- Portal for submission of abstracts to open on **December 11, 2020**
- Abstract submission deadline: **September 30, 2021**
- Review Ready Manuscripts due to session organizers: **November 4, 2021**
- Final Manuscripts and copyright assignment due to SAE: **January 7, 2022**

Upon submission, you will receive an automatic reply with your paper offer number. If you do not receive a number at that point, please retry online submission or contact nori.fought@sae.org.

Presenters will be charged a nominal fee for conference registration.

Need Help? [Click here](#) for more info or contact Nori Fought at +1.248.273.2465 or nori.fought@sae.org for assistance.

Dear Industry Colleague,

You are invited to share your knowledge and expertise with the global aerospace & defense technical community at the annual AeroTech® conference.

SAE International and industry peers on the AeroTech organizing committee invite your participation. Please consider joining us by harnessing the opportunities below.

Submit a technical paper or presentation for potential inclusion in AeroTech's Technical Program. Demonstrate your thought-leadership by: sharing new approaches and successes, updating industry on current work and projects, offering guidance and potential solutions to pressing challenges, imparting lessons learned and best practices, and/or convey cutting-edge research, development, and process or technology innovations. Get started simply by submitting a title and brief abstract (up to 250 words) online.

Join an AeroTech Technical Committee specific to your area of expertise. Take advantage of this unique opportunity: Join industry peers who are volunteering their time and shaping the AeroTech conference and larger industry, keeping pace with advances and learning about the latest innovations first, convening and contributing to the global aerospace & defense community, boosting information-sharing and collaboration across the mobility ecosystem, networking with industry thought-leaders and innovators, and leaving a lasting legacy. It doesn't require too much time; each committee meets monthly for roughly 30 minutes (attendance is appreciated but not required).

Save the date and plan to attend AeroTech 2022 on March 15–17, 2022 at the Pasadena Convention Center in Pasadena, California.

We hope you'll please join us, and we welcome you to share this information and invitation with your industry colleagues, partners, and peers. Please contact us anytime!

Sincerely,

Courtney Howard, Content Developer
(Courtney.Howard@sae.org)

Nori Fought, Content Administrator
(Nori.Fought@sae.org)

on behalf of the entire AeroTech Team, including industry leaders and SAE staff

Sponsors and exhibitors are invited and encouraged to contact Megan McCoy (+1.412.992.6518, megan.mccoy@sae.org), who will be happy to help.
