

Student Paper Competition

Entry Deadline: October 7, 2024

The 2025 Noise and Vibration Conference and Exhibition (NVH) will be hosting a Student Paper Competition. The competition is open to all currently enrolled full-time graduate and undergraduate university students, as well as those who have graduated from a university within the past six (6) months of May 2024.

Students must have a paper accepted as the main author (the author whose name is listed first on the paper) and must be the presenter of the paper at the 2025 Noise and Vibration Conference. Any topic related to vehicle NVH is permitted, as long as the paper is accepted and approved by an appropriate technical session of the SAE NVH Conference. The topic of the work must be related to the field of their study.

The students will present their paper during a judged Student Paper Competition session on Wednesday, May 14, 2025, during the conference (in addition to presenting the paper in the regular technical session, which will not affect the paper competition scoring). Entrants will be judged directly versus the other participants in the session.

Applicants are invited to submit their abstract of 300 words or less online via the call for papers at www.sae.org/nvh no later than October 7, 2024.

Rules of the Competition:

The student (or recent graduate within the past six (6) months) who enters the competition must be the main author and presenter of the paper. Professors, other students, advisors, and industry collaborators may be listed as co-authors and contributors to the paper but may not be the lead author or presenter in the regular technical session.

SAE Membership is recommended but is not mandatory.

The student must enter the same paper as the main author in one of the regular SAE NVH technical sessions and receive approval for the presentation of this paper at the conference prior to be eligible for the Student Paper Competition.

Judging:

Judging will take place on-site on Wednesday, May 14, 2025.

Judges will listen to the standard 15-minute presentation and follow up with a 5-minute Question & Answer and discussion related to the paper and presentation. Students should ensure that their paper presentation does not exceed the allocated 15 minutes.

The winning participants will be selected according to the following equally weighted criteria:

1. Paper quality (According to a second review made by the Judges)
2. Effectiveness of the judged oral presentation
3. Participant responses and discussion during Q & A follow-up

Awards:

Monetary prizes will be awarded for 1st, 2nd and 3rd place and a travel stipend for the 1st place paper based on the SAE paper evaluation/review criteria (Reviewing done during manuscript acceptance phase). The awards will be presented during the Closing Ceremonies on Thursday, May 15.

Student Paper Competition Chairman: Thierry Bourdon and Neha Joshi
