Abstract: In *at least 150 words (grades 4-6) or 300 words (grades 7-8)*, describe the issue you plan to address. In paragraph or bulleted format, be sure to address:

- What is the nature of the problem (e.g., environmental, educational, social, health) – who or what is negatively impacted?
- How big is the problem (local, national, global)?
- What is a major cause?
- What are the effects?
- In what way do you think STEM could lead to a solution?
- What is at least **1 source** you used to learn important details about this issue? Include a title, author, and link if applicable.
