

MEMBERSHIP STARTS WITH YOU

As an SAE Member, you already know the value of SAE International and Membership. Now we're asking you to share your SAE story with others in order to help grow and strengthen the membership community.

HOW TO GET STARTED:

1. Identify the appropriate candidates.

Talk to your family, friends, and coworkers to see if they would be a good fit for SAE International and vice versa. Do they work in the mobility industry as an engineer, or as a marketer or sales rep?

2. Share your SAE Member story

Why did you become a member? What has SAE contributed to your career? How do you benefit from membership? Invite your potential recruit to a section meeting or event to show how you're locally involved.

3. Invite your potential recruit to apply for membership.

Download the referral application from sae.org, or have one printed out and handy for them to complete. Once completed, you or the applicant can email the complete application to MembershipTeam@sae.org.

And if they are not ready yet to apply, that's okay! You can follow up with them and let them know you're open to more questions or discussions related to SAE and membership.

NEED ADDITIONAL RESOURCES?

Go to sae.org/participate/membership/member-get-a-member where you can access:

- PDF referral application
- Membership Brochure
- Recruitment email template
- Member Benefit Overview Flyer
