Call for Associate Editors

The SAE International Journal of Sustainable Transportation, Energy, Environment, and Policy is accepting applications for the position of Associate Editor for the following topics:

**Sustainable Transportation**
- Sustainable transportation & subsystems efficiency
- Auto-associated infrastructure (built)
- Traditional and emerging vehicles

**Sustainable Energy**
- Renewable energy: resources, storage, conversion, transmission
- Sustainable engineering
- Sustainable manufacturing
- Sustainable and advanced materials
- Efficiency enhancing mechanisms: optimization, combustion, lightweighting

**Sustainable Environment**
- Built environment
- Lifecycle assessment
- Lifecycle assessment (Photovoltaics)
- Lifecycle cost modeling, assessment, uncertainty and sensitivity analysis
- Carbon and water footprint
- Eco-labels

**Policy**
- Public policy
- Transportation policies
- Energy policies
- Social perspectives
- Economic perspectives

**Duties**
1. Ensuring timely processing of submitted manuscripts
2. Initial screening of manuscript to determine if peer review is merited
3. After initial screening, within five working days, inviting suitable peer reviewers and possible alternates
4. Monitoring the review process to ensure timely peer review
5. Evaluating the reviewers’ comments and deciding whether to Accept as is [with recommendation to the Editor-in-Chief (EIC)], send for Revision, or Reject
6. In the case of Revision, evaluating the revised manuscript and sending for additional review if needed and making a final recommendation to the EIC

**Requirements**
1. Published author within the past five years
2. Experience in the peer-review process
3. Competency in a subject(s) covered in the respective journal
4. Detail-oriented and able to monitor progress of assigned articles

If you are interested in being considered for an Associate Editor position, please contact Erin Renoll by email and include a brief CV (three-page max) that includes recent publications.
