

# TECHNICAL PAPERS

Access 25+ full-text preeminent, cutting-edge research articles covering the latest advances in aerospace technology.

“

**The best venue that allows me to help develop communication skills in young engineers is SAE, because you get potential access to respected, peer-reviewed technical paper publications, and the opportunity to present your information in front of 500 or so people—live, which makes this process so important.**

DR. JIM MCCARTHY JR., EATON CORPORATION

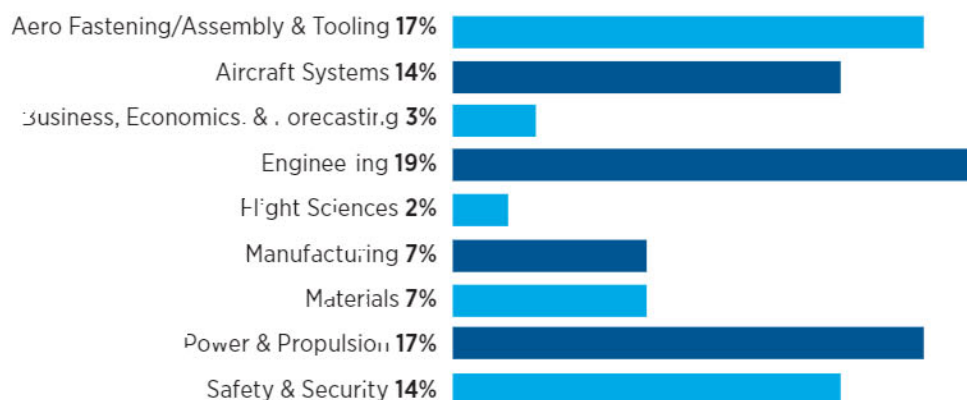

# AEROTECH 2021 TECHNICAL PAPERS

These papers cover the hottest and most timely topics in aerospace and defense, with a focus on automation and AI, autonomous and unmanned systems, electric and connected aircraft, advanced manufacturing, and so much more. Designed with features that keep you competitive, productive, and current, the SAE Mobilus® technical resource platform offers instant access to 226,000+ pieces of content from industry experts, including the latest standards, technical papers, articles, and more.
