

# TECHNICAL PAPERS

Access 880+ full-text preeminent, cutting-edge articles covering the latest advances in mobility research.

“

**The best venue that allows me to help develop communication skills in young engineers is SAE, because you get potential access to respected, peer-reviewed technical paper publications, and the opportunity to present your information in front of 500 or so people—live, which makes this process so important.**

DR. JIM MCCARTHY JR., EATON CORPORATION

# 2021 WCX™ Technical Papers

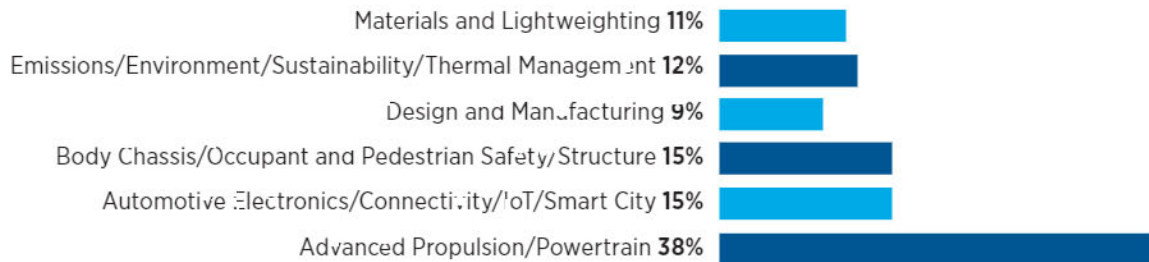

These papers cover mobility's biggest challenges of today, from developmental timelines for autonomous vehicles and new technologies to global supply chain constraints impacting the automotive industry.

Access these papers to learn about some of today's hottest topics, including:

- ADAS and Autonomous Vehicle System
- Foundations of Automobile Electronics
- Smart Transportation and Infrastructure
- AI and Machine Learning
- Thermal Systems for Hybrid and Electric Vehicles
- Emissions Measurement and Testing
- Advanced Hybrid and Electric Vehicle Powertrains
- Occupant Protection and Accident Reconstruction
