Alphabetical Listing

### Welcome to the IAQG Dictionary

This dictionary provides the definitions of words, terms and abbreviations as defined in IAQG, AAQG, APAQG and/or EAQG documents. It is managed by the Operating Management System (OMS) Team on behalf of the IAQG. It is not intended to be the absolute authority of definition, but a guide to be utilized as a quick reference and starting point for investigation if further technical accuracy or precise current definition is required. This document does not attempt to define terms applicable generically to Quality and defers to other worldwide / industry standards (e.g. ISO 9000) & dictionaries for that purpose. When applicable, the definition is followed by listing of the document source. Questions regarding the dictionary or content can be referred to the [IAQG OMS Team Dictionary Chair](#).

# General Features (Search Results)

The screenshot shows the IAQG International Dictionary search results for the term "quality". The page includes a search bar with the term "quality" entered, a navigation menu with letters A-Z, and a "Results" section. The results are displayed in a table with columns for Term, Definition, and Translation. The first result is for "quality", and the second is for "quality assurance". Each result includes a definition, notes, and dates for when the term was updated or created.

Term	Definition	Translation
<a href="#">quality</a>	<p>1. degree to which a set of inherent <a href="#">characteristics</a> fulfils <a href="#">requirements</a>.            NOTE 1: The term "quality" can be used with adjectives such as poor, good or excellent.            NOTE 2: "Inherent", as opposed to "assigned", means existing in something, especially as a permanent <a href="#">characteristic</a>. (ISO 9000:2005) [IAQG-history]</p> <p>Updated: 11 Jul 2013      Created: 11 Jul 2013</p>	
<a href="#">quality assurance</a>	<p>1. part of <a href="#">quality management</a> focused on providing confidence that quality <a href="#">requirements</a> will be fulfilled. (ISO 9000:2005) [IAQG-history]</p> <p>Updated: 11 Jul 2013      Created: 11 Jul 2013</p>
