About the author xxv
Foreword xxxi
Introduction xxxvii

1 An overview of aircraft maintenance 1
   1.1 Aircraft maintenance process 3
   1.2 Maintenance objectives 7
   1.3 Aircraft maintenance strategies 9
   1.4 The maintenance organisations 11
   1.5 Regulatory compliance 12
   1.6 Conclusion 14
   1.7 Notes 14

2 The business of maintaining aircraft 15
   2.1 The aviation MRO market overview 16
   2.2 Customers – who are they? 17
   2.3 Demand and capacity planning 19
   2.4 Service offerings 20
   2.5 Customer orders and contracts 23
   2.6 Order commitment and fulfilment 24
   2.7 Invoicing 25
2.8 Warranty in the world of aircraft maintenance 26
2.9 Customer care 30
2.10 Conclusion 31
2.11 Notes 31

3 Aircraft maintenance paradigm 33
3.1 The paradigm 33
3.2 Life cycle of a commercial aircraft 36
3.3 Airframe maintenance life cycle 53
3.4 Aircraft engine maintenance life cycle 64
3.5 Aircraft components maintenance life cycle 71
3.6 Ground support equipment/fleet (GSE/F) maintenance life cycle 75
3.7 Manage materials and logistics 78
3.8 Manage finance 86
3.9 Manage human resources 90
3.10 Manage facilities 93
3.11 Manage continuous improvements 95
3.12 CASS (Continuing Analysis and Surveillance System) 97
3.13 Manage environment 99
3.14 Manage information technology 100
3.15 Manage external relationships 104
3.16 Manufacture aircraft parts 105
3.17 Organisation structure 107
3.18 Summary 111
3.19 Notes 113

4 Aviation MRO organisations’ challenge to the IT industry 115
4.1 Too many aviation MRO standards and lack of them 116
4.2 The conundrum of ownership 123
4.3 Forecasting: does the industry have a crystal ball? 124
4.4 On-wing vs off-wing: the life value cascades 128
4.5 MRP-3 vs MSG-3: the ERP paradigm does not work 130
4.6 Every maintenance activity has to have a Task Card 132
4.7 Many systems to integrate 133
4.8 Summary 137
4.9 Note 137

5 The IT industry responds 139
5.1 The aviation MRO business and information technology 140
5.2 The era of bespoke systems 141
5.3 The vacuum and the minnows 160
5.4 The big boys get interested 167
5.5 The active vendors 170
5.6 Summary 174
5.7 Note 175

6 The current aviation MRO IT landscape 177
6.1 The legacy solutions 178
6.2 Best-of-breed solutions 181
6.3 Integrated ERP solutions 184
6.4 The technologies 186
6.5 So many solutions but no holy grail 188
6.6 Summary 190
6.7 Notes 191
