

INTELLIGENT TRANSPORT SYSTEMS IN EUROPE

Opportunities for Future Research

List of Chapters:

Preface

1. Introduction

2. Context

- 2.1 Getting the Benefits from ITS
- 2.2 Transport in the EU
- 2.3 Transport Policy
- 2.4 Socio-economic Trends
- 2.5 IT and Opportunities for Changes

3. Traveller Services

- 3.1 Passenger Transport Services
- 3.2 Information Services

4. Vehicles and Infrastructure

- 4.1 Advanced Driver Assistance Systems
- 4.2 Co-operative Vehicle Highway Systems
- 4.3 Human Machine Interaction
- 4.4 Emergency Response
- 4.5 Enforcement in ITS

5. Network Management

- 5.1 Traffic Management and Control
- 5.2 Road User Charging
- 5.3 Road and Traffic Monitoring

6. Freight Transport

- 6.1 Long Distance Freight
- 6.2 Urban Deliveries

7. ITS Support

- 7.1 Architecture
- 7.2 Radio-Navigation
- 7.3 Education and Training

8. Conclusions and Recommendations

Appendices

- A Research Projects related to ITS
- B Acronyms and Abbreviations

Bibliography 319

Part I

Chapter 1 Style Body Bold

Chapter 2 Style Body Bold

2.1 Body indent

2.2 Body indent

2.3 Body indent
