PART I: INTRODUCTION

1 Introduction
   Michael A. Regan and John D. Lee 3

PART II: DISTRACTION AND INATTENTION – THEORY, PHILOSOPHY AND DEFINITION

2 Driven to Distraction and Back Again
   Peter A. Hancock 9

3 Attention Selection and Multitasking in Everyday Driving: A Conceptual Model
   Johan Engström, Trent Victor and Gustav Markkula 27

4 Driver Distraction and Inattention: A Queuing Theory Approach
   John W. Senders 55

5 The Relationship between Driver Distraction and Mental Workload
   Nina Schaap, Richard van der Horst, Bart van Arem and Karel Brookhuis 63

PART III: VISUAL AND ATTENTIONAL PROCESSES

6 How is Driving-Related Attention in Driving with Visual Secondary Tasks
   Controlled? Evidence for Top-Down Attentional Control
   Barbara Metz, Nadja Schoemig and Hans-Peter Krueger 83

7 Proposing a Risk Monitor Model Based on Emotions and Feelings: Exploring the
   Boundaries of Perception and Learning
   Truls Vaa 103
PART IV: DISTRACTION – CRASHES AND CRASH RISK

8 Distraction and Inattention: Top Crash Causes in the USA
   Ralph H. Craft and Brian Preslopesky
   123

9 Driver Distraction in Commercial Motor Vehicle Operations
   Richard J. Hanowski, Rebecca L. Olson, Jeffery S. Hickman and Joseph Bocanegra
   141

10 Driver Distraction and Inattention and their Role in Crashes and Safety-Critical Events
    Craig P. Gordon and Michael A. Regan
    157

11 A Review of Epidemiological Data on the Risks of using a Telephone while Driving
    Jean-Louis Martin
    171

12 Drivers’ Perceptions of Risk linked to Mobile Phone Use while Driving and Implications for the Design of Driver Awareness Campaigns
    Corinne Brusque
    195

PART V: DISTRACTION – MEASUREMENT

13 Development and Validation of an Ecological Driver Distraction Evaluation Tool
   Kristie L. Young, Michael G. Lenné, Jeffery Archer and Amy Williamson
   211

14 Oculometric Measures as an Index of Clinical Causes of Driver Drowsiness and Inattention
   William Torch and Carlos Cardillo
   229

PART VI: DISTRACTION – EFFECTS ON DRIVING PERFORMANCE

15 Driving Whilst Using In-Vehicle Information Systems (IVIS): Benchmarking the Impairment to Alcohol
   Tony Wynn, John H. Richardson and Alan Stevens
   253

16 Visual Attention in Novice Drivers: A Lack of Situation Awareness
   Melissa Dickinson, Eugene Chekaluk and Julia Irwin
   277

17 Impact of Mobile Phone Use on Driving Performance: Review of Experimental Literature
   Marie-Pierre Bruyas
   293
PART VII: DISTRACTION COUNTERMEASURES

18 Melbourne Drivers’ Observed Use of Mobile Phones: Could there be Unintended Consequences of Partial Bans?  
*Christina M. Rudin-Brown, Kristie L. Young and Michael G. Lenné*  
313

19 The Driver Distraction Detection Algorithm AttenD  
*Katja Kircher and Christer Ahlström*  
327

20 Management of Distraction Risk from Mobile Phones in the UK Rail Industry  
*Toni Luke, Jay Heavisides and Dan Basacik*  
349

21 Smart Driving Assistance Systems: Designing and Evaluating Ecological and Conventional Displays  
*Stewart A. Birrell and Mark S. Young*  
373

22 Using Road Safety Evidence and “Safety in Design” Approaches to Regulate Driver Distraction from Roadside Advertising  
*Tim Horberry, Michael A. Regan and Jessica Edquist*  
389

23 The Impact of Sleepiness on Lane Positioning in Truck Driving  
*David Sandberg, Mattias Wahde, Anna Anund, Göran Kecklund and Torbjörn Åkerstedt*  
405

PART VIII: CONCLUSIONS

24 Distraction and Inattention: Current Themes and Research Directions  
*John D. Lee and Michael A. Regan*  
419

*Index*  
429
