

Proceedings

7TH AVL INTERNATIONAL COMMERCIAL POWERTRAIN CONFERENCE

May 22nd–23rd, 2013, Helmut-List-Halle, Graz Austria

Organized by AVL in cooperation with
SAE *International*

1.1 Keynote
CO₂ emissions and future initiatives in development countries**10**

Sam Burman - Chief Technology Officer;
ASHOK Leyland

**1.2 Keynote**
The global challenges of modern agriculture**16**

Prof. Martin Richenhagen - Chairman, President and CEO;
AGCO Corporation

**1.3 Keynote**
Energy efficiency of construction machines – a contribution to CO₂ reduction**20**

Werner Seifried - Managing Director;
LIEBHERR Hydraulikbagger GmbH

**1.4 Reducing GHG from transport – ensuring a role for HDV's****24**

Ian Hodgson - Policy officer, DG Climate Action;
European Commission

**1.5 Recent developments in European emission regulations for nonroad mobile machinery****31**

Dr. Peter Scherm - General Manager;
EUROMOT

	<p>2.1 Commercial vehicle market trends</p> <p>Perspective 1 - On-Highway Michael Bitter - Director Strategic Marketing, Diesel Systems Ellen Mailänder, Calogero Palumbo; Robert Bosch GmbH</p> <p>Perspective 2 - Off Highway Dr. Götz Klink - Partner; A.T. Kearney GmbH</p>		33
	<p>2.2 Shaping future transportation: CleanDrive technology</p> <p>Roland Dold - Senior Manager Truck Product Engineering Alternative Powertrain; DAIMLER AG</p>		42
	<p>2.3 Reducing CO₂ emission in tractor application</p> <p>Dr. Heribert Reiter - Vice President Engineering, Simon Pinter; AGCO GmbH (Fendt)</p>		47
	<p>2.4 Liebherr Pactronic® - Hybrid Power Booster: Energy recovery and increased performance with hybrid drive system</p> <p>Dr.-Ing. Klaus Schneider - Director Drive Systems, Walter Länge, Rudolf Ellensohn; LIEBHERR</p>		59
	<p>2.5 Tractor/Implement simulation to optimize in-field CO₂ emission and drivability</p> <p>Udo Kneitz - Managing Director; AVL Commercial Driveline & Tractor Engineering GmbH, Christof Danner; AVL List GmbH</p>		65
	<p>2.6 Paccar's engine portfolio – developed for low CO₂ emission</p> <p>Erik Versluis - Assistant Chief Engineer; DAF Trucks</p>		83
	<p>2.7 ISUZU's scenario for commercial vehicle engines</p> <p>Dr. Naoki Shimazaki - General manager, 1st Engine Research Dept.; Isuzu Advanced Engineering Center, Ltd, Yoshiyuki Abe - Chief Engineer PT Product Planning & Engineering Dept. No.2; ISUZU Motors Limited</p>		88
	<p>2.8 Estimation of results and potential of electromechanical drivetrain in agricultural tractors</p> <p>Dr. Stanislav Florentsev - General Director; Ruselprom Electric Drive</p>		101

	Page
 <p>3.1 The hybrid architecture for chassis frame vehicles</p> <p>Alessandro Bernardini - Head of Innovation & Advanced Engineering; IVECO</p>	112
 <p>3.2 Electric drives in mobile agricultural machinery – products and potentials</p> <p>Dr. Joachim Sobotzik - Lead, Electric Drive Systems, Ag & Turf Global Platform Services; John DEERE</p>	115
 <p>3.3 Fuel efficiency in construction equipment – optimize the machine as a system</p> <p>Gunnar Stein - Global Director Driveline Systems, Anders Fröberg, Jonas Martinsson, Björn Brattberg, Reno Filla, Joakim Unnebäck; VOLVO Construction Equipment</p>	121
 <p>3.4 Definition, design and thermal integration of a WHR system</p> <p>Lukas Walter - Vice President Commercial Powertrain Systems; AVL List GmbH</p>	130
 <p>3.5 Modern agricultural transmission systems: demands and features</p> <p>Jürgen Pohlenz - Senior Manager Development Agricultural CVT Transmissions, Thomas Cappellaro; ZF Friedrichshafen AG</p>	138
 <p>3.6 Close coupled DOC mixer SCR for Tier 4 final</p> <p>Dr. Korneel De Rudder - Development Manager Emissions; DONALDSON Europe B.V.B.A.</p>	148

	4.1 Emissions calculation in the logistic industry and its impact and trends for the powertrain industry	157
	Matthias Loebich - Partner, Matthias Wohlfahrt; BearingPoint GmbH, Dr.Andreas Opelt; INFONOVA GmbH	
	4.2 From clean diesel to clean energy, CO₂ emissions will change the game	162
	Giovanni Bartoli - CEO; FPT Industrial	
	4.3 Compact and powerful engine package - the DEUTZ way for competitive agricultural and industrial applications	167
	Dr. Ralf Marquard - Senior Vice President Research & Development, Dr. Ing. Georg Töpfer; DEUTZ AG	
	4.4 Life cycle analysis of representative offroad machines	180
	Dr. Xinqun Gui - Manager, Powertrain Technology and Electronic Engine Controls; John DEERE	
	4.5 Targeting 50 % brake engine efficiency: a reactivity-controlled dual-fuel multi-cylinder HD engine concept	185
	Dr. Andrew M. Ickes - Lead Engineer; ARGONNE National Laboratory	

Eine CD-ROM mit allen Vorträgen erhalten Sie
per Post nach der Konferenz.

A CD-ROM with all presentations will be sent to you
by post after the conference.
