

Electric Vehicle Forecasts, Trends and Opportunities 2015-2025

*Hybrid and pure electric vehicles for land,
water and air*

1.	EXECUTIVE SUMMARY AND CONCLUSIONS	1
1.1.	The value market for electric vehicles EVs of all types	1
1.2.	IDTechEx electric vehicles market forecasts 2015-2025	2
1.3.	Batteries and motors numbers 2015-2025	14
1.4.	League table of largest EV manufacturers	15
1.5.	Market sectors and technology trends	16
1.6.	Small and Medium Enterprises SME come to the fore	19
1.7.	Numbers of manufacturers	20
1.8.	Mark ups through the value chain	20
1.9.	Electric “cars” – many very different types	22
1.9.1.	Pure electric cars	23
1.9.2.	Car-like vehicles not homologated as cars	23
1.9.3.	Plug-in vehicle sales	26
1.10.	Market by territory	29
1.10.1.	Global	29
1.10.2.	Europe	29
1.10.3.	China	31
1.10.4.	USA	33
1.11.	Lessons from EV related events	35
2.	INTRODUCTION	45
2.1.	Definitions and scope of this report	45
2.1.1.	Organisations involved in the EV industry value chain	46
2.1.2.	Commonality	46
2.1.3.	Key components and systems	47
2.1.4.	Batteries	47
2.1.5.	Efficiency	62
2.2.	Hybrid electric vehicles	63
2.2.1.	Here come range extenders	64
2.2.2.	Structural components	64
2.3.	Benefits	64
2.3.1.	How green are electric vehicles really?	65
2.3.2.	Contrast global automotive production 2012: major polluter	68
3.	HEAVY INDUSTRIAL EVS	71
3.1.	What is included	71
3.2.	Challenges	71
3.3.	Listing of manufacturers	72

3.3.1.	Statistics for all types of industrial lift truck	72
3.3.2.	Manufacturers of heavy industrial EVs	75
3.4.	Survey of expected powertrains including EV options	75
3.5.	Market size	77
4.	LIGHT INDUSTRIAL, BUSES AND OTHER COMMERCIAL EVS	79
4.1.	What is included	79
4.1.1.	Large and diverse sector	79
4.1.2.	Mainly on-road	79
4.1.3.	Move to cities	79
4.1.4.	Hybrid and pure electric trend	80
4.1.5.	Sub categories	80
4.2.	Buses	81
4.2.1.	Vans, pick-up trucks and larger on-road trucks	82
4.3.	Market drivers	82
4.4.	Airport EVs: Ground Support Equipment GSE	83
4.4.1.	Airbus signs MoU to develop airliner electric taxi system	85
4.5.	Small people-movers	86
4.6.	Light industrial aids	86
4.7.	Listing of manufacturers	87
5.	MOBILITY FOR THE DISABLED	91
5.1.	Compelling and enduring need	91
5.2.	The demographic time-bomb	91
5.2.1.	Ageing population, obesity and the dependent elderly	92
5.2.2.	Laws make mobility easier	93
5.3.	Types of mobility vehicle	93
5.3.2.	Interchina Industry Group China	95
5.4.	Listing of manufacturers	96
5.4.2.	Growth by creating new markets	98
6.	TWO WHEELED EVS AND ALLIED VEHICLES	99
6.1.	What is included	99
6.1.1.	China – unprecedented growth of electric two wheelers	99
6.1.2.	Other countries	102
6.2.	Prices and performances compared	104
6.2.2.	Hybrid motorcycles	106
6.3.	Market drivers	107
6.3.1.	Bicycles and electric bicycles	107
6.3.2.	The big winners in western markets	108
6.4.	Statistics for all bicycles	110
6.5.	Listing of manufacturers	111

6.5.1.	China	113
6.6.	Forecasts	115
7.	CAR-LIKE VEHICLES NOT HOMOLOGATED AS CARS: MICROEV, QUADRICYCLE, E-TRIKE, NEV, GOLF CAR	117
7.1.	Many names, common factors	117
7.2.	Car-like vehicles that evade restrictions, taxes and other costs	120
7.3.	Estrima Birò MicroEV Quadricycle removable battery	122
7.4.	Philippines: big new commitments to e-trikes	124
7.5.	Listing of manufacturers beyond golf cars	126
7.6.	Golf cars	128
7.6.1.	What is included	128
7.6.2.	Market drivers	129
7.6.3.	Prices and profits	130
7.6.4.	Listing of manufacturers	130
7.6.5.	Forecasts	131
8.	PURE ELECTRIC AND HYBRID CARS	133
8.1.	The market for electric cars	133
8.1.1.	Definitions	133
8.1.2.	Cars as part of the big picture	134
8.1.3.	Further details of e-car trends	134
8.1.4.	League table of top 13 electric vehicle companies	137
8.1.5.	Awkward tipping point	137
8.1.6.	Forecasting challenges	139
8.2.	Disruptive change and merging of all parts	140
8.3.	Range extenders including fuel cells	142
8.4.	Batteries	143
8.5.	Electric motors	146
8.6.	Power electronics	147
8.6.1.	Increased performance and complexity	147
8.7.	Supercapacitors: more than meets the eye	148
8.7.1.	Across batteries in cars	148
8.7.2.	Completely replacing batteries in hybrid cars	150
8.7.3.	Across fuel cells in cars	150
8.8.	Progress of Toyota and Tesla	151
8.8.1.	Market and technology priorities	151
8.8.2.	Toyota simplifies priorities and Tesla lands Gigafactory partnership	152
9.	MILITARY	157
9.1.	Examples of military EVs	157
9.1.1.	Hummer USA / China	158

9.1.2.	Quantum Technologies USA Aggressor AMV	158
9.1.3.	US Army trucks etc – ZAP, Columbia ParCar USA	159
9.1.4.	Oshkosh Truck Corp USA	159
9.1.5.	Plug-in trucks – BAE Systems UK	161
9.1.6.	Electric robot vehicles USA	162
9.1.7.	UQM unmanned combat vehicle USA	162
9.1.8.	Balqon Corporation	162
9.2.	Electric Unmanned Aerial Vehicles (UAVs)	163
9.2.1.	Small electrical UAVs	164
9.2.2.	SUAV batteries	165
9.2.3.	The most successful electric UAV	166
9.2.4.	Micro nano air vehicles	168
9.2.5.	Large electrical UAVs	168
9.2.6.	COM-BAT robot bat USA	169
9.3.	Examples of military EVs – in the water	170
9.3.1.	US Naval Undersea Warfare Center	170
9.4.	Manufacturers of military EVs	171
9.5.	Forecasts	172
10.	MARINE	173
10.1.1.	Hybrid and pure electric tugboats	173
10.2.	Market segments	176
10.2.1.	Total market	176
10.2.2.	Underwater	176
10.2.3.	On the water	177
10.3.	Commonality with land EVs	178
10.3.1.	Grants for land and water	178
10.3.2.	Effect of land EV manufacturers entering marine	178
10.4.	Market drivers	178
10.4.1.	Pollution laws back electric boats – India, Europe, USA	179
10.4.2.	Energy harvesting superyacht UK	179
10.4.3.	Autonomous Underwater Vehicles (AUVs) – Europe, USA	181
10.5.	Manufacturers by country and product	182
10.6.	Selling prices	183
10.7.	Forecasts	184
11.	AIRCRAFT, MOBILE ROBOTS AND OTHER EVS	185
11.1.	Definition	185
11.2.	Market drivers	185
11.3.	Listing of other manufacturers by country and product	186
11.4.	Market size and trends	186
11.4.1.	Aircraft – Renault, Piccard	187
11.4.2.	Solar Impulse	188

11.4.3.	Non-military mobile robots – USA, UK, Japan	189
11.4.4.	The Electrolux Automower Sweden	191
11.4.5.	Rescue robots in Germany	192
11.4.6.	Robots on Mars	192
11.4.7.	Leisure on land	194
11.4.8.	Research and hobbyist	195
11.4.9.	Electric aircraft for civil use	195
11.4.10.	Robotic lawn mowers	195
11.5.	Forecasts	197
