

Range Extenders for Electric Vehicles Land, Water & Air 2015-2025

Technologies, players,
market forecasts

Contents

Page

1.	EXECUTIVE SUMMARY AND CONCLUSIONS	1
1.1.	Range extender market in 2025	1
1.2.	EV market 2015 and 2025 identifying hybrids	2
1.3.	Hybrid and pure electric vehicles compared	8
1.4.	Hybrid market drivers	8
1.5.	What will be required of a range extender 2015-2025	8
1.6.	Three generations of range extender	9
1.7.	Why range extenders need lower power over the years	11
1.8.	Energy harvesting – mostly ally not alternative	13
1.9.	Key trends for range extended vehicles	14
1.10.	Combining heating and range-extension for electric vehicles	16
1.11.	Emergency range extenders	16
1.12.	Latest timelines	17
1.12.1.	Piston engine use and rotary engine tests	17
1.12.2.	Gas turbines	17
1.12.3.	Fuel cell rollouts	17
1.13.	BMW	18
2.	INTRODUCTION	19
2.1.	Types of electric vehicle	19
2.2.	Many fuels	24
2.3.	Born electric	25
2.4.	Pure electric vehicles are improving	25
2.5.	Series vs parallel hybrid	26
2.6.	Modes of operation of hybrids	26
2.6.1.	Plug in hybrids	26
2.6.2.	Charge-depleting mode	27
2.6.3.	Blended mode	27
2.6.4.	Charge-sustaining mode	28
2.6.5.	Mixed mode	28
2.7.	Microhybrid is a misnomer	28
2.8.	Deep hybridisation	29
2.9.	Battery cost and performance are key	30
2.10.	Hybrid price premium	31
2.11.	What is a range extender?	32
2.11.1.	First generation range extender technology	32
2.11.2.	Second generation range extender technology	32
2.11.3.	Third generation range extender technology	33
2.12.	PEM fuel cells	34

2.13.	Market position of fuel cell range extenders	35
3.	MARKETS AND TECHNOLOGIES FOR REEVS	37
3.1.	Range extenders for land craft	38
3.2.	Range Extenders for electric aircraft	38
3.2.1.	Military aircraft	38
3.3.	Comparisons	39
3.4.	Fuel cells in aviation	42
3.5.	Civil aircraft	44
3.6.	Range extenders for marine craft	45
4.	RANGE EXTENDER DEVELOPERS AND MANUFACTURERS	47
4.1.	Advanced Magnet Laboratory USA	47
4.2.	AeroVironment / Protonex Technology USA	48
4.3.	Austro Engine Austria	52
4.4.	Bladon Jets UK	53
4.5.	BMW Germany	57
4.6.	Brayton Energy USA	57
4.7.	Capstone Turbine Corporation USA	57
4.8.	Compound Rotary Engines UK	60
4.9.	Daimler AG inc Mercedes Benz Germany	60
4.10.	DLR German Aerospace Center Germany	61
4.10.1.	Free piston range extenders	63
4.11.	EcoMotors	72
4.12.	Ener1 USA	73
4.13.	ETV Motors Israel	74
4.14.	FEV USA	75
4.15.	Flight Design Germany	75
4.16.	Getrag Germany	76
4.17.	GSE USA	76
4.18.	Hüttlin Germany	78
4.19.	Hyperdrive UK	79
4.20.	Libralato UK	80
4.20.1.	Libralato technology	80
4.20.2.	Avoiding the problems of the Wankel engine	80
4.20.3.	The company	81
4.21.	Intelligent Energy UK	82
4.22.	KSPG Germany	83
4.23.	LiquidPiston USA	85
4.24.	Lotus Engineering UK	86
4.25.	MAHLE Powertrain UK	89
4.26.	Mazda Japan	95
4.27.	Polaris Industries Switzerland	96

4.28.	Powertrain Technologies UK	98
4.29.	Proton Power Systems plc UK/Germany	98
4.30.	Ricardo UK	100
4.31.	Suzuki Japan	100
4.32.	Toyota Japan	100
4.33.	Urbee Canada	103
4.34.	Volkswagen Germany	103
4.35.	Volvo Sweden/China	106
4.35.1.	Long term major work	106
4.35.2.	Volvo V8 performance with four cylinders	107
4.36.	Warsaw University of Technology, Poland	108
5.	RANGE EXTENDER INTEGRATORS	109
5.1.	ACAL Energy UK	109
5.2.	Airbus (formerly EADS) Germany	109
5.3.	Altria Controls USA	109
5.4.	Ashok Leyland India	110
5.5.	Audi Germany	110
5.6.	AVL Austria	111
5.7.	Azure Dynamics USA	111
5.8.	BAE Systems UK	112
5.9.	BMW Germany	113
5.10.	Boeing Dreamworks USA	113
5.11.	Chrysler USA	114
5.12.	ENFICA-FC Italy	116
5.13.	Ford USA	123
5.14.	Frazer-Nash UK	124
5.15.	General Motors including Opel	125
5.16.	Honda Japan	127
5.17.	Hyundai Korea	127
5.18.	Jaguar Land Rover UK	128
5.19.	Langford Performance Engineering Ltd UK	129
5.20.	Marion HSPD USA	130
5.21.	Pipistrel Slovenia	131
5.22.	SAIC China	131
5.23.	Skyspark Italy	132
5.24.	Suzuki Japan	132
5.25.	Tata Motors India	134
5.26.	Toyota Japan	135
5.27.	Université de Sherbrooke Canada	136
5.28.	University of Stuttgart Germany	138
5.29.	Volvo Sweden/ China	138
5.30.	Wrightspeed USA	142

5.31.	Yo-Avto Russia	143
6.	RECENT ADVANCES	145
6.1.	Latest update on Taiwan Automotive International Forum and Exhibition October 2014	145
6.2.	Electric vehicles set for 2014 MPG Marathon	147
6.3.	Hydrogen fuel cell range extenders double the range of EV trucks	149
	IDTECHEX RESEARCH REPORTS AND CONSULTANCY	151
