

Table of Contents

Introduction	vii
Two-Stage Turbocharging	
Challenges for Increased Efficiency through Gasoline Engine Downsizing—2009-01-1053	1
Variable Geometry Compressors	
The Potential of Variable Compressor Geometry for Highly Boosted Gasoline Engines—2011-01-0376	19
Turbocharging of Downsized Gasoline DI Engines with 2 and 3 Cylinders—2011-24-0138	33
Variable Geometry Diffuser of Turbocharger Compressor for Passenger Vehicles—2003-01-0051	49
Unconventional Compressor Configurations	
Parametric Studies of the Impact of Turbocharging on Gasoline Engine Downsizing—2009-01-1472	57
Electrically Assisted Turbocharging	
Coordinated Electric Supercharging and Turbo-Generation for a Diesel Engine—2010-01-1228.....	69
