List of Papers

Motorsports Industry Knowledge Exchange (MiKE): Oxymoron or Holy Grail (An Imperative for Sustaining Regional, National and Global Competitiveness) (2006-01-3610) Mike Meechan	1
Hardware-in-the-Loop Testing in Racing Applications (2004-01-3502) Peter Waeltermann, Thomas Michalsky, Johannes Held	19
Coolant Flow Optimization in a Racing Cylinder Block and Head Using CFD Analysis and Testing (2004-01-3542) Jian Ye, Jim Covey, Daniel D. Agnew	33
Improvement of a High-Performance CNG-Engine Based on an Innovative Virtual Development Process (2011-24-0140) Marco Chiodi, Alessandro Ferrari, Oliver Mack, Michael Bargende, Donatus Wichelhaus	43
The Application of Energy-Based Fuel Formulae to Increase the Efficiency Relevance and Reduce the CO ₂ Emissions of Motor Sport (2008-01-2953) J.W.G. Turner, R.J. Pearson	57
High Power Density Motor for Racing Use (2011-39-7221) Tamotsu Kawamura, Hirofumi Atarashi, Takehiro Miyoshi	69
The Development of a Low Viscosity, Highly Efficient Lubricant for Sport Motorcycle Applications (2011-32-0513) Gianluigi Zoli, Matthew Symonds, May Turner, Ieuan Adams, Nick Solomon, Mark Leonard, Cliff Newman	75
An Improvement of a Small Displacement Engine's Efficiency with a Super Charging System (2011-32-0571) Changjoo Ahn, Takashi Suzuki, Yasuhumi Oguri, Hiroki Toshitani, Tatsuyoshi Nakahuku, Yusuke Nakano	81
The Effects of Intake Plenum Volume on the Performance of a Small Normally Aspirated Restricted Engine (2008-01-3007) L.J. Hamilton, J.E. Lee	89
Design and Development of a Turbocharged E85 Engine for Formula SAE Racing (2008-01-1774) Jason P. Moscetti, Bryan Gilroy Smith, Volker Sick	97

Optimizing the Design of the Air Flow Orifice or Restrictor for Race Car Applications (2007-01-3553) Harry C. Watson, Andrew Gauci, Faez Yousuff, Alberto Boretti	103
A Theoretical and Experimental Study of Resonance in a High Performance Engine Intake System: Part I (2006-01-3653) S. Brennan, R.J. Kee, R.G. Kenny, R. Fleck, J.A. Gaynor, B. Fleck	111
Horsepower Retention by ISF (Isotropic Superfinishing) of Automotive Racing Components (2004-01-3511) William P. Nebiolo	125
