Introduction	vii
Effect of Stagnation Flow on an Impacting Water Droplet on a Superhydrophobic Surface (2013-01-2174)	1
Icing Process of Supercooled-Water Droplet Moving on a Surface by Using Luminescent Temperature-Imaging Technique (2013-01-2210).....	7
Considerations on the Use of Hydrophobic, Superhydrophobic or Icephobic Coatings as a Part of the Aircraft Ice Protection System (2013-01-2108)	13
Evaluation of Icing Scaling on Swept NACA 0012 Airfoil Models (2011-38-0081)	25
New SLD Icing Capabilities at DGA Aero-engine Testing (2011-38-0086)	39
S-76D™ Tail Rotor Ice Impact Test (2011-38-0101).....	47
Numerical Correlation Between Meteorological Parameters and Aerodynamic Performance Degradation of Iced Airfoils (2013-01-2137)	61
Calculation of Ice Shapes on Oscillating Airfoils (2011-38-0015)	75
Oscillating Airfoil Icing Tests in the NASA Glenn Research Center Icing Research Tunnel (2011-38-0016)	85
In-Flight Icing of UAVs - The Influence of Reynolds Number on the Ice Accretion Process (2011-01-2572)	95
