VOLUME 6C – CHAPTER 1

Methodology for Simulation of Rollover Cases 1

Introduction 1

Short History in Rollover Research 1

Short History in Rollover Tests 2

Short History in Rollover Protection 3

The Necessity for Rollover Methodology 3

Rollover Tool Chain Methodology 4

Application and Results of the Rollover Tool Chain 5

Accident Scenario Module (ASM) 6

Active Safety Systems Design Module (ASSDM) 7

Restraint Systems and Interior Design Module (RSIDM) 9

Benefit and Injury Assessment Module (BIAM) 11

Conventional Assessment Parameters 11

Injury Assessment Parameters 12

Harm Assessment Parameters 13

Conclusion 14

Acknowledgments 14

References 14

Definitions, Acronyms, Abbreviations 16

VOLUME 6C – CHAPTER 2

Dolly Rollover Testing of Child Safety Seats 17
