## CHAPTER 5

Forward Collision Warning: Clues to Optimal Timing of Advisory Warnings

| Forward Collision Warning: Clues to Optimal Timing of Advisory Warnings |
|-----------------------------|-----------------------------|
| Introduction 53 |
| Methods 54 |
| Sample 55 |
| Procedure and Design 55 |
| Measures and Statistical Analyses 56 |
| Assessments of Functioning 56 |
| Driving Performance Measures 56 |
CHAPTER 6
Situation Awareness, Scenarios, and Secondary Tasks: Measuring Driver Performance and Safety Margins in Highly Automated Vehicles 65
Introduction 66
Types and Levels of Automation 66
Failure Modes of Driver-Automation Interaction 67
Driving Simulator Protocol 68
Latent Hazards to Assess Situation Awareness 69
Secondary Task Engagement 70
Measures of Driver Performance and Safety Margins 72
Conclusion 72
Contact Information 73
Acknowledgments 73
References 73

CHAPTER 7
Frontal Collisions—What Are the Limitations of Future Forward-Looking Safety Systems? 77
Introduction 78
Limitations of Current and Future Pre-crash Systems 78
One Dimensional Example 79
Moving to Two Dimensions 82
Limiting Trajectories and Sampling in between 84
What Are the Problems? 85
What Can Be Done 89
Summary/Conclusions 90
Contact Information 90
Definitions/Abbreviations 90
References 90
CHAPTER 8
Hardware-in-the-Loop (HIL) Implementation and Validation of SAE Level 2 Autonomous Vehicle with Subsystem Fault Tolerant Fallback Performance for Takeover Scenarios 93

Introduction 94
Hardware-in-the-Loop (HIL) Simulation 97
HIL Hardware 98
Engine Control Module (ECM) 98
Hybrid Control Module (HCU) 99
Gear Shift Module (GSM) 99
Transmission Range Control Module (TRCM) 100
Gateway Module (GWM) 100
Microautobox (MABX) 100
HIL Modeling 100
Automated Longitudinal Control 101
Automated Lateral Control 103
HIL SAE Level 2 Automation 106
Simulations and Test Results 110
Automated Longitudinal Control Simulations & Test Results 112
Automated Lateral Control Simulations & Test Results 114
Subsystem Faults and Fallback Performance Simulation & Test Results 116
Conclusions 119
Contact Information 122
Abbreviations 122
References 123

CHAPTER 9
Vehicle-GIS Assistant Driving System for Real-time Safety Speed Warning on Mountain Roads 127

1. Introduction 128
2. System Description 130
   2.1 System Fundamentals 130
   2.2 The Basic Structure of the System 130
   2.3 Basic Process of the System 131
# Contents

## 3. Modeling and Constraints

### 3.1 Designed Highway Speed Limit in Mountainous Area

#### 3.1.1 Design Speed of Downhill Section in Mountainous Area
#### 3.1.2 Highway Speed Limit

### 3.2 Vehicle Dynamics Modeling of Commercial Vehicles on Downhill

#### 3.2.1 Ramp Brake Model
#### 3.2.2 Weight Model

### 3.3 Brake Temperature Rise Model

#### 3.3.1 Energy Analysis of Downhill Section
#### 3.3.2 Analysis of Brake Temperature Rise

## 4. Case Studies and Simulations

### 4.1 The Main Parameters of the Target Vehicle Model
### 4.2 Safety Speed Simulation of Downhill Section
### 4.3 Influence of Vehicle Weight on Slope Top Safety Speed
### 4.4 Brake Temperature Rise Comparison

## 5. Conclusion

## References

## Definitions/Abbreviations

**CHAPTER 10**

Overtaking or Merging? Eco-Routing Decision and Speed Trajectory with Full Terrain Information

### Introduction
### Vehicle Dynamic Model
### Optimization Constraints
#### Internal Constraints
#### External Constraints
### Platoons Initial State
#### Overtaking Safety

### Motion Planning Algorithm
### Discrete Dynamic Programming (DP)
#### Introduction to DP
#### Forward Discrete DP
#### Cost Function
Model Predictive Control (MPC) and Linear Quadratic Regulator (LQR) 156
  Linear Quadratic Regulator (LQR) 156
  Model Predictive Control (MPC) 156
Simulation Results 157
  Unconstrained Speed Trajectories vs. Uniform Motion 157
  Constrained vs. MPC and LQR 157
    One Preceding Platoon 158
    Two Preceding Platoons 159
    Three Preceding Platoons 161
Sensitivity Analysis 162
  Influence of Initial Speed on Optimal Trajectories 162
Conclusion 163
Contact Information 164
Acknowledgments 164
References 164
Epilogue 167
