Clean Snowmobile Challenge - 2: The Revival of the 2-Stroke Engine and Studying Flex Fuel Engines
Student Research Papers

Edited by
Jay S. Meldrum
# Table of Contents

**Foreword** ........................................................................................................................................... vii

**Solutions to the Clean Snowmobile Challenge - What Works?** (2005-01-3681)........ 1  
Traci A. Faulkner and Jay S. Meldrum, Michigan Technological University

**Clean Snowmobile Challenge - What Have We Learned?** (2005-01-3682).......... 17  
Ryan E. Fox and Jay S. Meldrum, Michigan Technological University

**SAE Clean Snowmobile Challenge 2003 Summary of Results** (2005-01-3683)...... 33  
Catherine Horsch and Jay S. Meldrum, Michigan Technological University

**Enhancement of Engineering Education through University Competition-Based Events** (2006-32-0049 / 20066549)................................................................. 47  
Jay S. Meldrum, Katie L. Reynolds, and Jason M. Keith, Michigan Technological University

**University of Idaho’s Clean Snowmobile Design Using a Direct-Injection Two-Stroke** (2005-01-3680)................................................................. 55  
Nathan Bradbury, Russel Schiermeier, Tyler Harris, and Karen R. DenBraven, University of Idaho

**University of Idaho’s Clean Snowmobile Design Using a Direct-Injection Two-Stroke** (2006-32-0050 / 20066550)................................................................. 65  
Nathan Bradbury, Andrew Findlay, Justin Johnson, Erik Van Patten, and Karen R. DenBraven, University of Idaho

**University of Idaho’s Clean Snowmobile Design Using a Direct-Injection Two-Stroke Engine** (2008-32-0031 / 20084731)................................................................. 79  
Nicholas Harker and Karen R. DenBraven, University of Idaho; Justin Johnson and Andrew Findlay, BRP, Inc.

Chad Swartz, Jason Sanger, Brian Schickel, Sumit Kaul, John Stimpson, Adam Grobelny, and Gregory W. Davis, Kettering University

Integration of Hybrid-Electric Strategy to Enhance Clean Snowmobile Performance (2006-32-0048 / 20066548) ............................... 105

Eric Schroeder, Ethan Brodsky, Adam Schumacher, and Glenn R. Bower, University of Wisconsin-Madison

Nicholas Rakovec, Brian Olenski, Michael Maney, and Glenn R. Bower, University of Wisconsin
