Executive Summary	ix
-------------------	----

CHAPTER 1

The Nature of Counterfeit Electronic Parts	<u>1</u>
1.1 Introduction	<u>1</u>
1.2 What Is an Electronic Part?	<u>1</u>
1.3 What Is a Counterfeit Electronic Part?	<u>2</u>
1.4 Why Should We Be Concerned about Counterfeit Electronic Parts?	<u>3</u>
1.4.1 Counterfeit Electronic Parts Can Impact Safety and Security	<u>3</u>
1.4.2 Counterfeit Electronic Parts Can Drive Up Program Costs	<u>6</u>
1.4.3 Counterfeits May Not Always Be Detected by Testing	<u>6</u>
1.4.4 Counterfeits May Not Meet “Markings”	<u>7</u>
1.5 Availability of Counterfeit Electronics	<u>7</u>
1.5.1 Counterfeit Electronic Parts in the DoD Supply Chain	<u>8</u>
1.5.2 Senate Armed Services Committee Investigation	<u>13</u>
1.5.3 IHS Numbers on Counterfeit Electronic Parts	<u>14</u>
1.5.4 GAO Report on Counterfeit Electronic Parts	<u>14</u>
1.5.5 Customs and Border Protection Statistics	<u>14</u>
1.5.6 Numbers of Incidents Involving Counterfeit Electronic Parts	<u>15</u>
1.6 Where Do Counterfeit Electronic Parts Come From?	<u>16</u>
References	<u>17</u>

CHAPTER 2

Counterfeit Electronic Parts Manufacturing and the Supply Chain	<u>21</u>
2.1 Introduction	<u>21</u>
2.2 How Are Legitimate Electronic Parts Manufactured?	<u>21</u>
2.3 How Are Counterfeit Electronic Parts “Manufactured”?	<u>23</u>
2.4 What Is a Supply Chain?	<u>26</u>
2.5 How Are Electronic Parts Purchased by the Supply Chain?	<u>26</u>
2.5.1 Purchasing from the Original Component Manufacturer	<u>26</u>
2.5.2 Purchasing from the Authorized Distributor	<u>27</u>
2.5.3 Purchasing from the Non-Authorized Distributor	<u>27</u>

2.6 Life Cycle of Electronic Parts	<u>28</u>
2.7 Life Cycle of Aviation, Spacecraft, and Defense Products	<u>28</u>
2.8 How Do Counterfeit Electronic Parts Enter the Supply Chain?	<u>29</u>
References	<u>32</u>

CHAPTER 3

Keeping Counterfeit Electronic Parts Out of the Supply Chain 35

3.1 Introduction	<u>35</u>
3.2 What Is the Solution to Keeping Counterfeits Out of the Supply Chain?	<u>35</u>
3.3 Solutions, Best Practices, and Recommendations	<u>36</u>
3.3.1 Legislation	<u>36</u>
3.3.2 Standards	<u>39</u>
SAE International	<u>39</u>
Independent Distributors of Electronics Association	<u>39</u>
International Electrotechnical Commission	<u>39</u>
3.3.3 Testing (Verification)	<u>41</u>
3.3.4 Reporting	<u>42</u>
Government-Industry Data Exchange Program	<u>43</u>
Electronic Resellers Association Incorporated	<u>44</u>
National Intellectual Property Rights Coordination Center	<u>44</u>
Federal Aviation Administration Suspected Unapproved Parts Program	<u>45</u>
3.3.5 Authentication Marking	<u>46</u>
3.3.6 Training	<u>47</u>
3.3.7 E-waste	<u>48</u>
3.3.8 Other Best Practices	<u>49</u>
3.4 The Solution to Keeping Counterfeits Out of the Supply Chain?	<u>49</u>
References	<u>51</u>

CHAPTER 4

The Future of Combating Counterfeit Electronic Parts 57

4.1 Introduction	<u>57</u>
4.2 Varying Department of Defense Budgets	<u>58</u>
4.3 Trusted Foundry	<u>58</u>
4.4 Trusted Supplier	<u>60</u>

4.5 Conflicting Contracting Regulations	<u>62</u>
4.6 Testing Limitations	<u>63</u>
4.7 No Fault Found	<u>64</u>
4.8 Advanced Technologies	<u>65</u>
4.8.1 DARPA SHIELD Program	<u>65</u>
4.8.2 Other Future Technologies	<u>66</u>
References	<u>67</u>

CHAPTER 5

Summary and Conclusion: The Way Forward	<u>71</u>
5.1 Defining Counterfeit Electronic Parts	<u>71</u>
5.2 Manufacturing Counterfeit Electronic Parts	<u>72</u>
5.3 Counterfeit Electronic Parts Entering the Supply Chain?	<u>73</u>
5.4 Keeping Counterfeits Out of the Supply Chain	<u>73</u>
5.5 Reducing the Proliferation of Counterfeit Electronic Parts	<u>75</u>
5.6 Elimination of Electronic Waste to Reduce Counterfeits	<u>76</u>
5.7 Reaction by Industry and Government	<u>77</u>
References	<u>78</u>
