Aircraft Thermal Management: Integrated Energy Systems Analysis
Other SAE books of interest:

**Aircraft Thermal Management: Systems Architectures**
By Mark F. Ahlers
(Product Code: PT-177)

**Icing Acretion and Icing Technologies**
By Robert J. Flemming
(Product Code: PT-163)

**Integrated Vehicle Health Management: Essential Reading**
By Ian K. Jennions
(Product Code: PT-162)

Aircraft Thermal Management: Integrated Energy Systems Analysis

By Mark F. Ahlers
# Table of Contents

**Introduction** ................................................................................................................. 1

1. **An Exergy-Based Methodology for Decision-Based Design of Integrated Aircraft Thermal Systems (2000-01-5527)** ........................................................... 3  
   Figliola, R., and Tipton, R.

   Maser, A., Garcia, E., and Mavris, D.

   Bodie, M.

5. **Integrated Electrical and Thermal Management Sub-system Optimization (2010-01-1812)** ......................................................................................... 45  
   Bodden, D., Eller, B., and Clements, S.

   Vredenborg, E., and Thielecke, F.

   del Valle, P., and Blazquez Munoz, P.

8. **A Thermal Management Assessment Tool for Advanced Hypersonic Aircraft (921941)** ............................................................................................................. 71  

9. **Model-Based Thermal Management Functions for Aircraft Systems (2014-01-2203)** ............................................................................................................. 89  
   Schlabe, D., and Lienig, J.
10. A Modeling Approach for Integrated Thermal Management System Analysis of Aircraft (971242) ................................................................. 99
Van Griethuysen, V. J., Issacci, F., and Farr, J., Jr.
