Clean Snowmobile Challenge – 3: Refinement of Production Engines and New Control Strategies
Other SAE Books of Interest

Richard Van Basshuysen and Fred Schäfer
(Product Code: R-434)

Vehicle Noise, Vibration, and Sound Quality
Gang Sheng
(Product Code: R-400)

Diesel Emissions and Their Control
W. Addy Majewski and Magdi K. Khair
(Product Code: R-303)

Emission Control and Fuel Economy for Port and Direct Injected SI Engines
John H. Johnson
(Product Code: PT-91)

Emissions from Two-Stroke Engines
Marco Nuti
(Product Code: R-223)

Concepts in Turbocharging for Improved Efficiency and Emissions Reduction
Mehrdad Zangeneh
(Product Code: PT-156)
Clean Snowmobile Challenge – 3: Refinement of Production Engines and New Control Strategies

Edited by Jay S. Meldrum
Table of Contents

Foreword .............................................................................................................................................. vii

Dr. Gregory W. Davis, Francis Wilson, Brian Schickel, and Andrew Baker, Kettering University

Gregory W. Davis, Kettering University

University of Idaho’s Flex-Fuel Two-Stroke Snowmobile (2010-32-0084/20109084) .................................................. 17
Peter Britanyak, Alex Fuhrman, Dylan Dixon, and Karen R. Den Braven, University of Idaho; Nicholas Harker

Development of a Miller Cycle Powersports Engine (2014-32-0090/20149090) ...... 31
Jeffrey Blair and Glenn Bower, University of Wisconsin

Developing Best Available Technology in a Flex-Fuel Snowmobile by Using a Lean-Burn Miller Cycle (2013-32-9176/20139176) ............................................................ 39
Matt Birt and Gregory W. Davis, Kettering University

Michael J. Santora and Dillon Savage, University of Idaho

Measurement of Dry Soot and Particulate Matter from Two-Stroke and Four-Stroke Snowmobiles (2010-32-0042/20109042) ................................................................. 55
Scott A. Miers, Christopher A. Green, Jay S. Meldrum, and Christine Lundberg, Michigan Technological University; William Silvis and Harry Pankratz, AVL North America Inc.
Development of an In-Service Snowmobile Emission Test Procedure for the SAE Clean Snowmobile Challenge (2009-01-2625) ............................................................. 65

Christopher J. Weingartz and Scott A. Miers, Michigan Technological University

Sound Quality Jury Analysis versus Sound Pressure Measurement in Snowmobiles (2009-01-2231) ................................................................. 75

Jay S. Meldrum, Michigan Technological University and Jud Knittel, HEAD acoustics, Inc.
