The J563 Cigarette Lighter and Power Outlet Task Force is part of the Circuit Protection and Switch Devices Standards Committee that reports to the Electrical Systems Group of the Motor Vehicle Council.

The Task Force's purpose is to determine if there is an industry interest in forming a workgroup(s) to address a new standard(s) for Cigarette Lighters and Power Outlets as a replacement for SAE J563. A secondary function is to determine interest in expanding the effort into other voltages.

Participants in the J563 Cigarette Lighter and Power Outlet Task Force include OEMs, suppliers, consulting firms, government, and other interested parties.

Reference the Circuit Protection and Switch Devices Standards Committee Fact Sheet for a complete list of standards.
