SAE Ground Vehicle Technical Committees: Electrical Systems
Harness Covering Standards Committee

The Harness Covering Standards Committee is part of the Electrical Systems Group of the Motor Vehicle Council.

The Committee is responsible for developing and maintaining SAE Standards, Recommended Practices, and Information Reports related to the technology that treats the physical protection of wiring harnesses and those components responsible for physical protection. Test methods and specifications associated with those components are included in the scope.

Participants in the Harness Covering Standards Committee include OEMs, suppliers, consulting firms, government, and other interested parties.

SAE Harness Covering Standards Committee
Standards Development & Revision Activities

J2192 - Recommended Testing Methods for Physical Protection of Wiring Harnesses

J2302 – Thermal Effectiveness of Sleeve Insulation

J2495 – Thermal Containment Efficiency of Sleeve Materials

One world.
One standard.
One Source.

Join an SAE Standards committee.
